

DUFOUR

2026 RANGE

— INSTINCTIVE SAILING —

**LIFE OUTDOORS.
THE OCEAN AWAITS.**

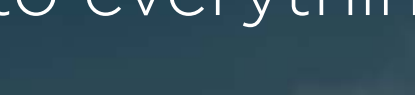

Reconnect people with the ocean.

Relearn how to live in rhythm with the wind and the sea.

Manifesto

Outside living

Sailing is far more than a break from everyday life. It is a way of being.

Outdoors. In motion. Connected to everything around us.

Reading the water. Listening to the wind. Finding balance in the flow.

Every Dufour yacht is designed for this. For feeling. For pure pleasure.

Clean, powerful lines. A strong marine character. Open spaces made for living with the ocean.

Only what is needed. Where it is needed. To go further — and reconnect with what truly matters.

Instinctive Sailing

Instinctivism

In a world that is accelerating, increasingly distant from nature and reality, the need to return to something simpler becomes essential.

**To find rhythm again.
To refocus.
To reconnect.**

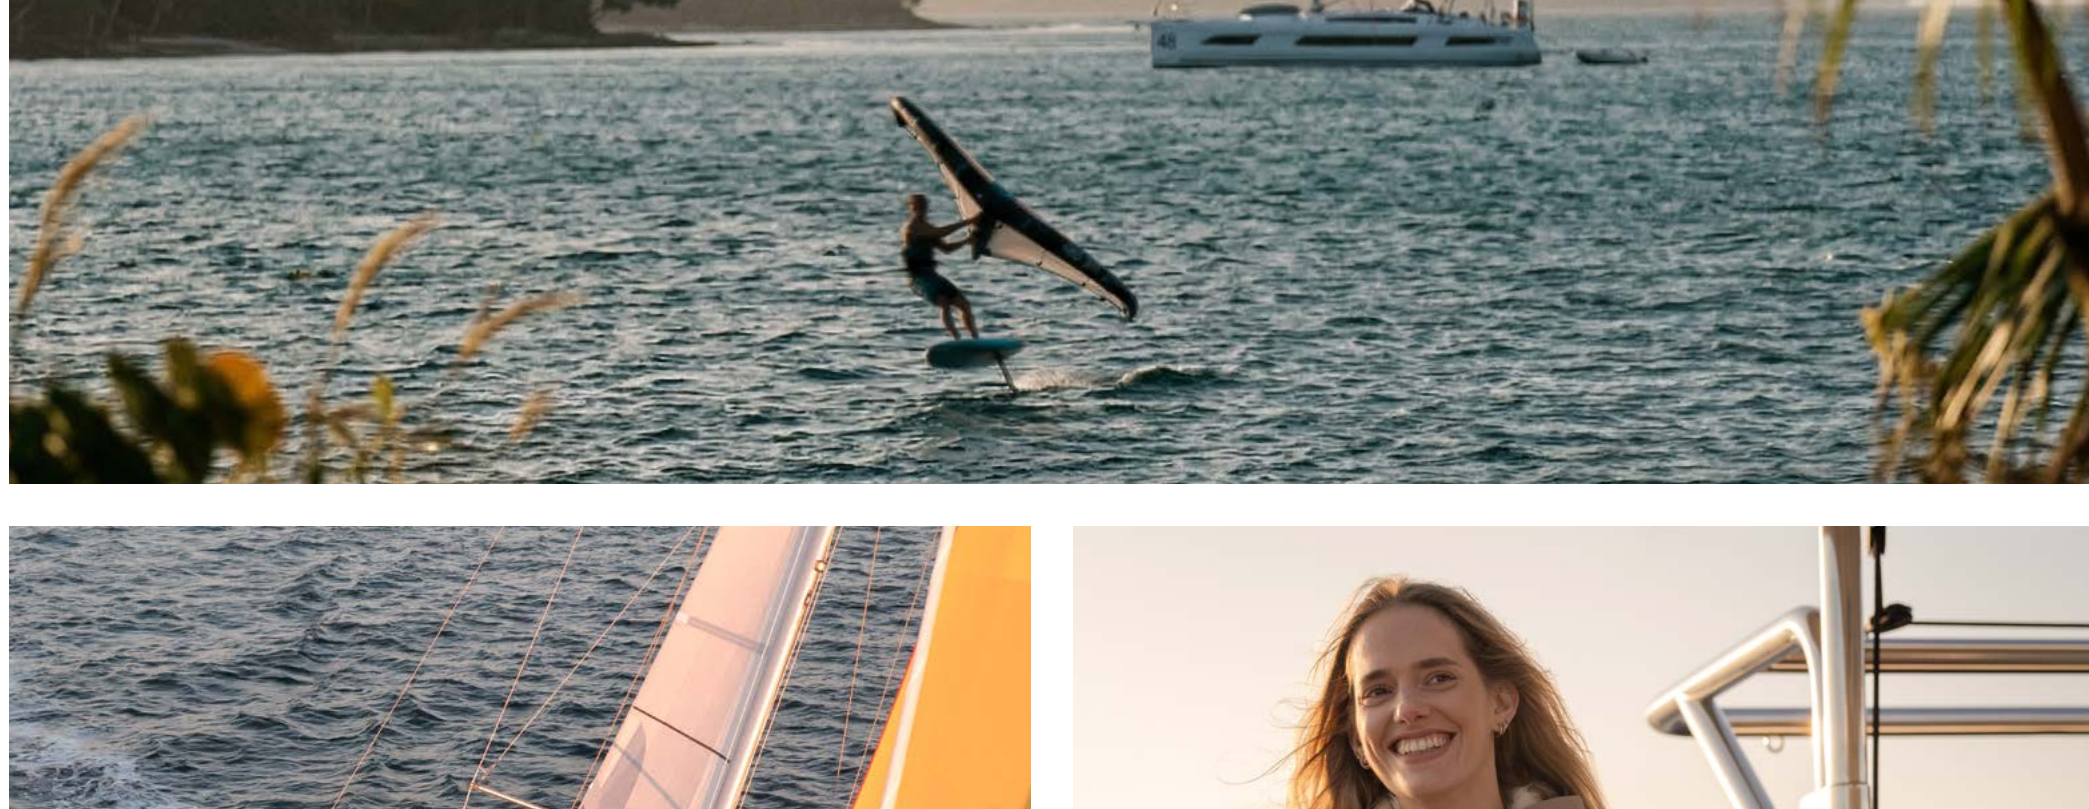

It is within this movement that Instinctivism takes shape: a way of being in the world that begins at sea.

Instinctivism — noun

A way of being at sea based on sensory experience and presence in the moment.

Sailing where movement becomes instinctive, where body, yacht, and ocean move as one.

An art of living outdoors, in harmony with the elements, deeply connected to the ocean.

Our 4 pillars, which define the Dufour universe

Design

Balanced by design.

Designing sleek, perfectly balanced yachts, created by and for those who love the ocean.

Outdoor

More to explore.

Inventing a lifestyle outdoors — free and fluid — where comfort extends the pleasure of sailing.

Connection

Connected to the Ocean.

Sailing is about connecting with the ocean. Moving silently, carried by light and wind, leaving nothing behind but the wake.

Sensation

Guided by sensation.

Creating and sharing genuine emotions, as close as possible to wind and sea.

A different way of sailing.

Dufour designs yachts without compromise on seaworthiness and the pleasure of sailing.

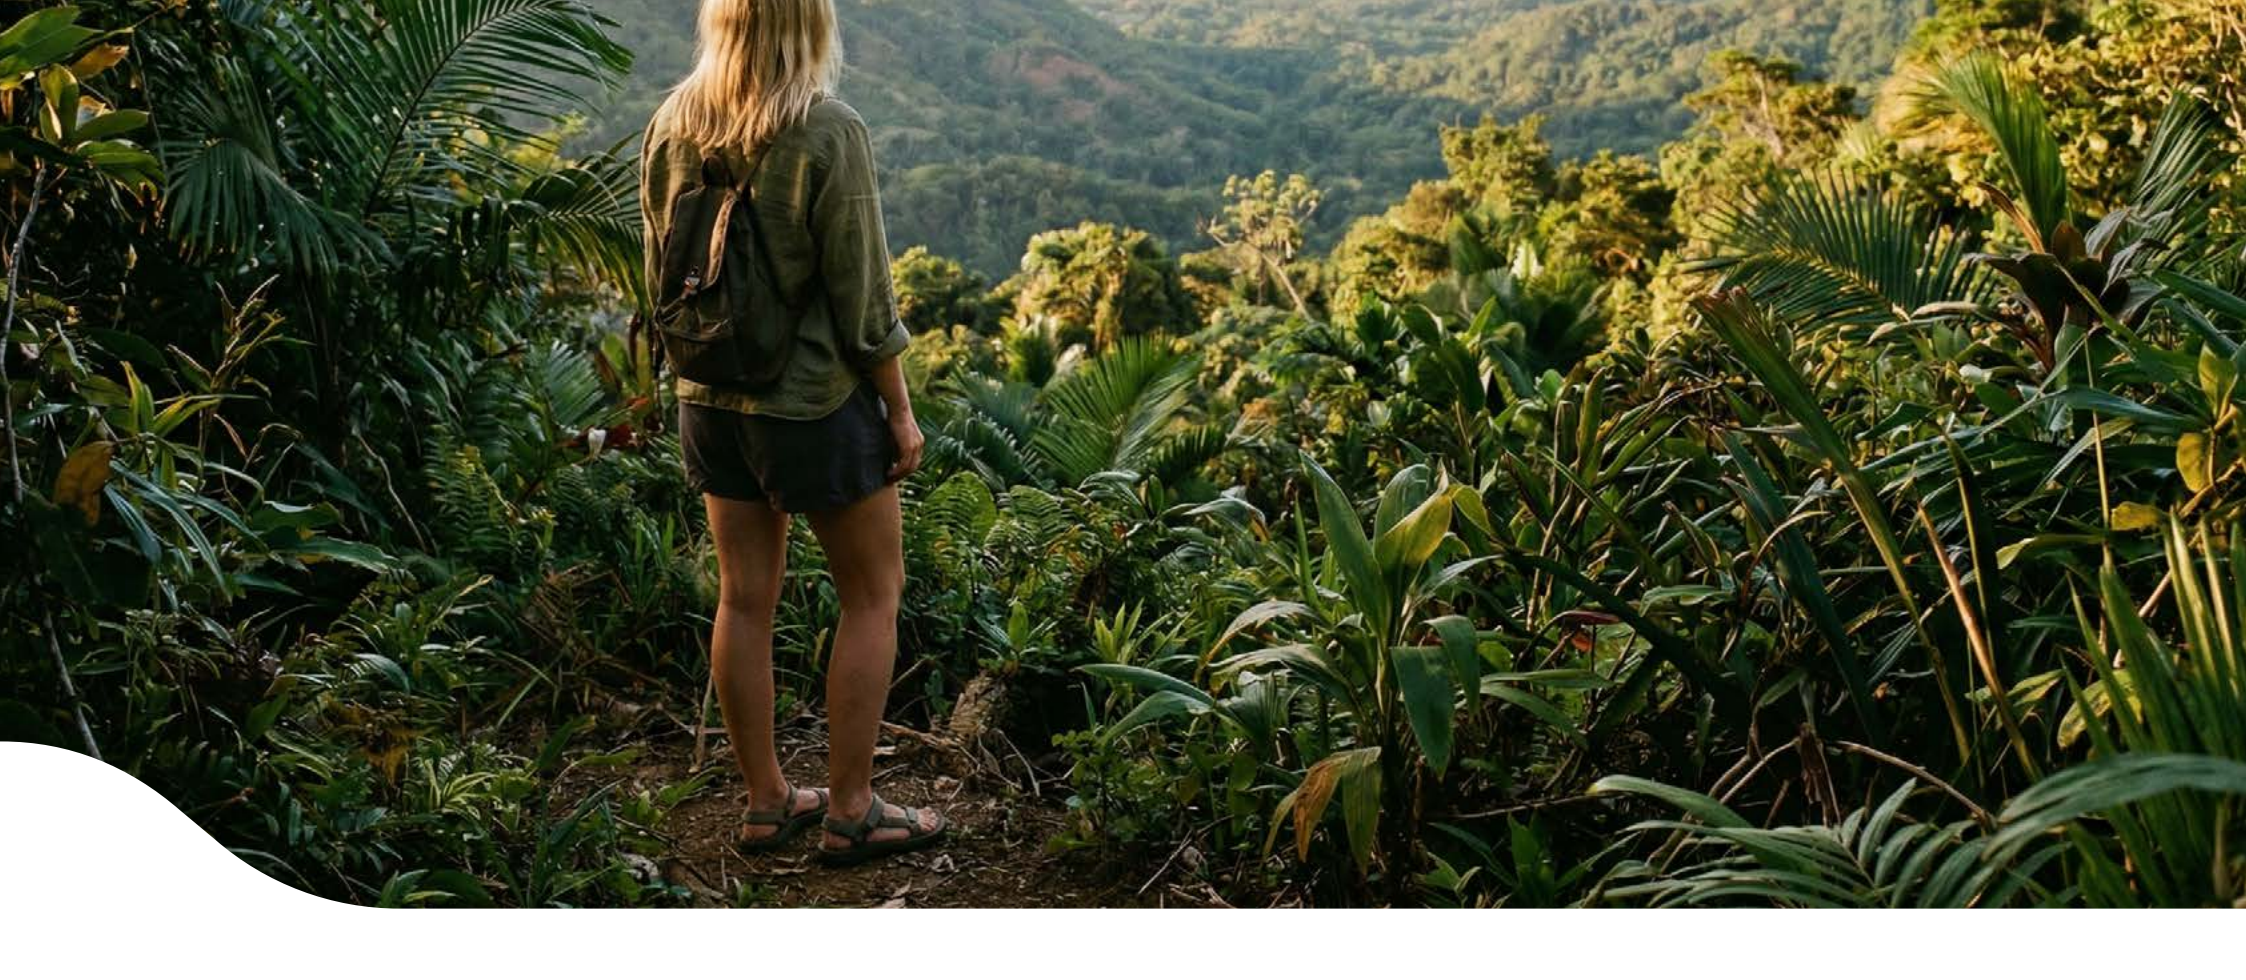

From 37 to 54 feet, each model extends the same sensations.

Fluid, intuitive sailing, deeply connected to the ocean.

Yachts designed with precision, yet accessible, built to support every sailing project.

A complete range, from your first mile to bluewater crossings.

To experience the sea at your own pace.

Dufour 37

The Dufour spirit, from the very first mile

The Dufour 37 opens the door to the Dufour universe. An accessible yacht, designed for family cruising, that carries the DNA, comfort, and sensations of the larger models. At the helm, you no longer just look at the sea. You feel it. A 35'4" sailing yacht, easy to handle and fast under sail. The starting point for experiencing the sea in a different way.

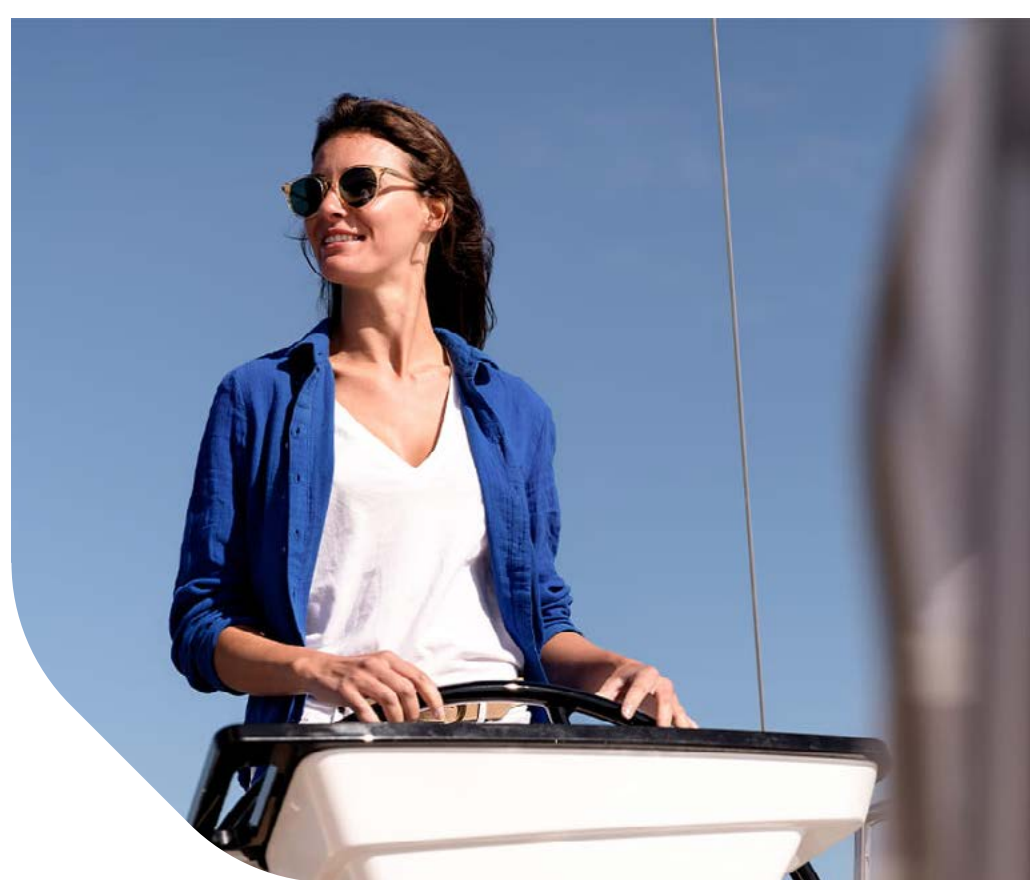

Pure, immediate sensations

Designed by Umberto Felci, the Dufour 37 reveals a sleek, perfectly balanced silhouette, created to deliver precise and accessible sensations from the very first miles. Its low wetted-surface hull ensures a smooth glide and sharp acceleration, while the single rudder provides direct feedback to the helm.

The self-tacking jib simplifies everyday maneuvering. As an option, a genoa on tracks delivers more power and upwind performance for longer passages. A lively, safe, and intuitive yacht that instantly inspires a passion for sailing.

Living outside, naturally

Designed for life on board, the Dufour 37 cockpit is spacious, ergonomic, and safe. Every movement is simple. Every moment finds its place. Inflatable cockpit cushions and removable sunbathing pads extend time spent outdoors, effortlessly.

At anchor or underway, everything invites you to stay outside.

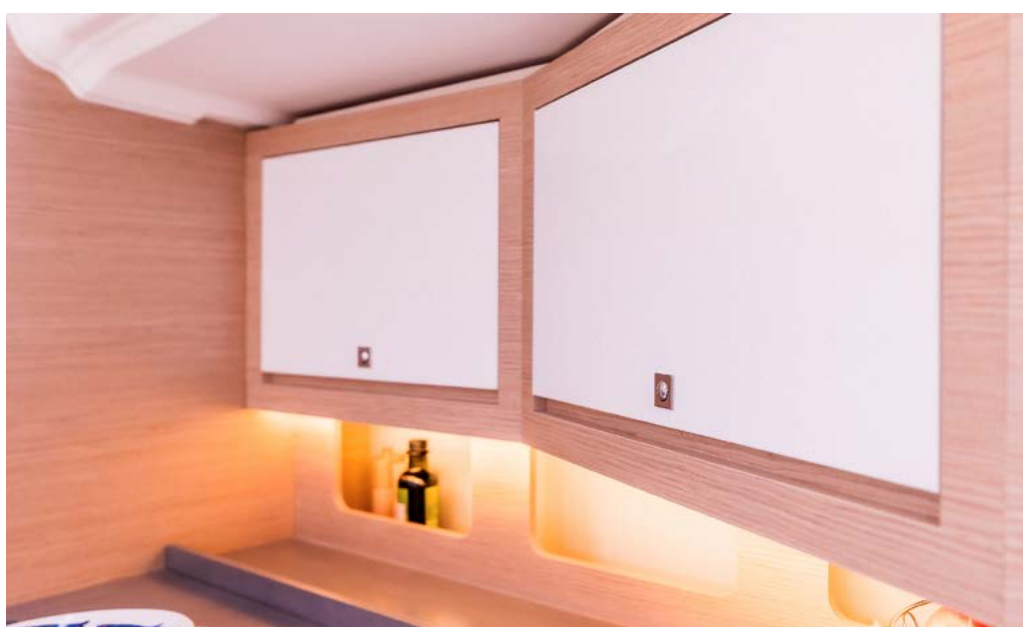

Dufour 37

A bright and welcoming interior

Inside, the Dufour 37 surprises with its volume and natural light. Daylight, enhanced by hull and deck windows, creates a clean and contemporary atmosphere. Materials are durable, and lines are calm and refined. In its three-cabin layout with convertible saloon, the Dufour 37 accommodates up to eight guests, whether family or friends. An interior designed to support every use, with no unnecessary excess.

37

Highlights

Intuitive sailing

A low wetted-surface hull and a precise single rudder provide smooth handling and immediate sailing pleasure from the twin helm stations.

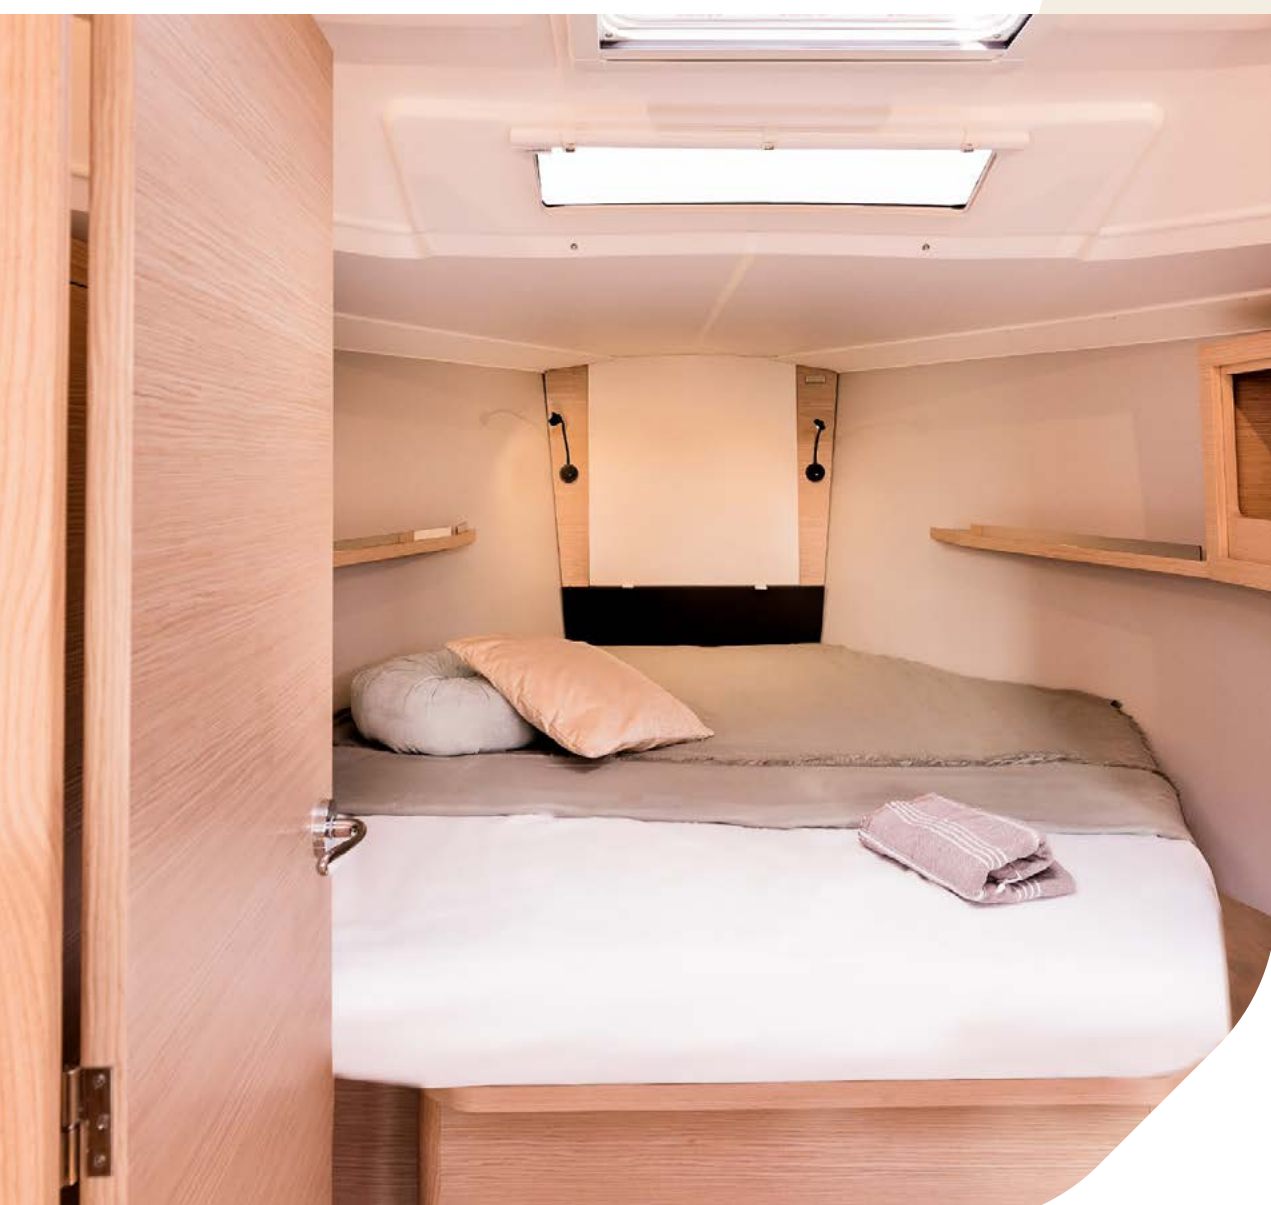

A cockpit designed for outdoor living

A spacious, secure cockpit extended by an outdoor galley designed for shared moments.

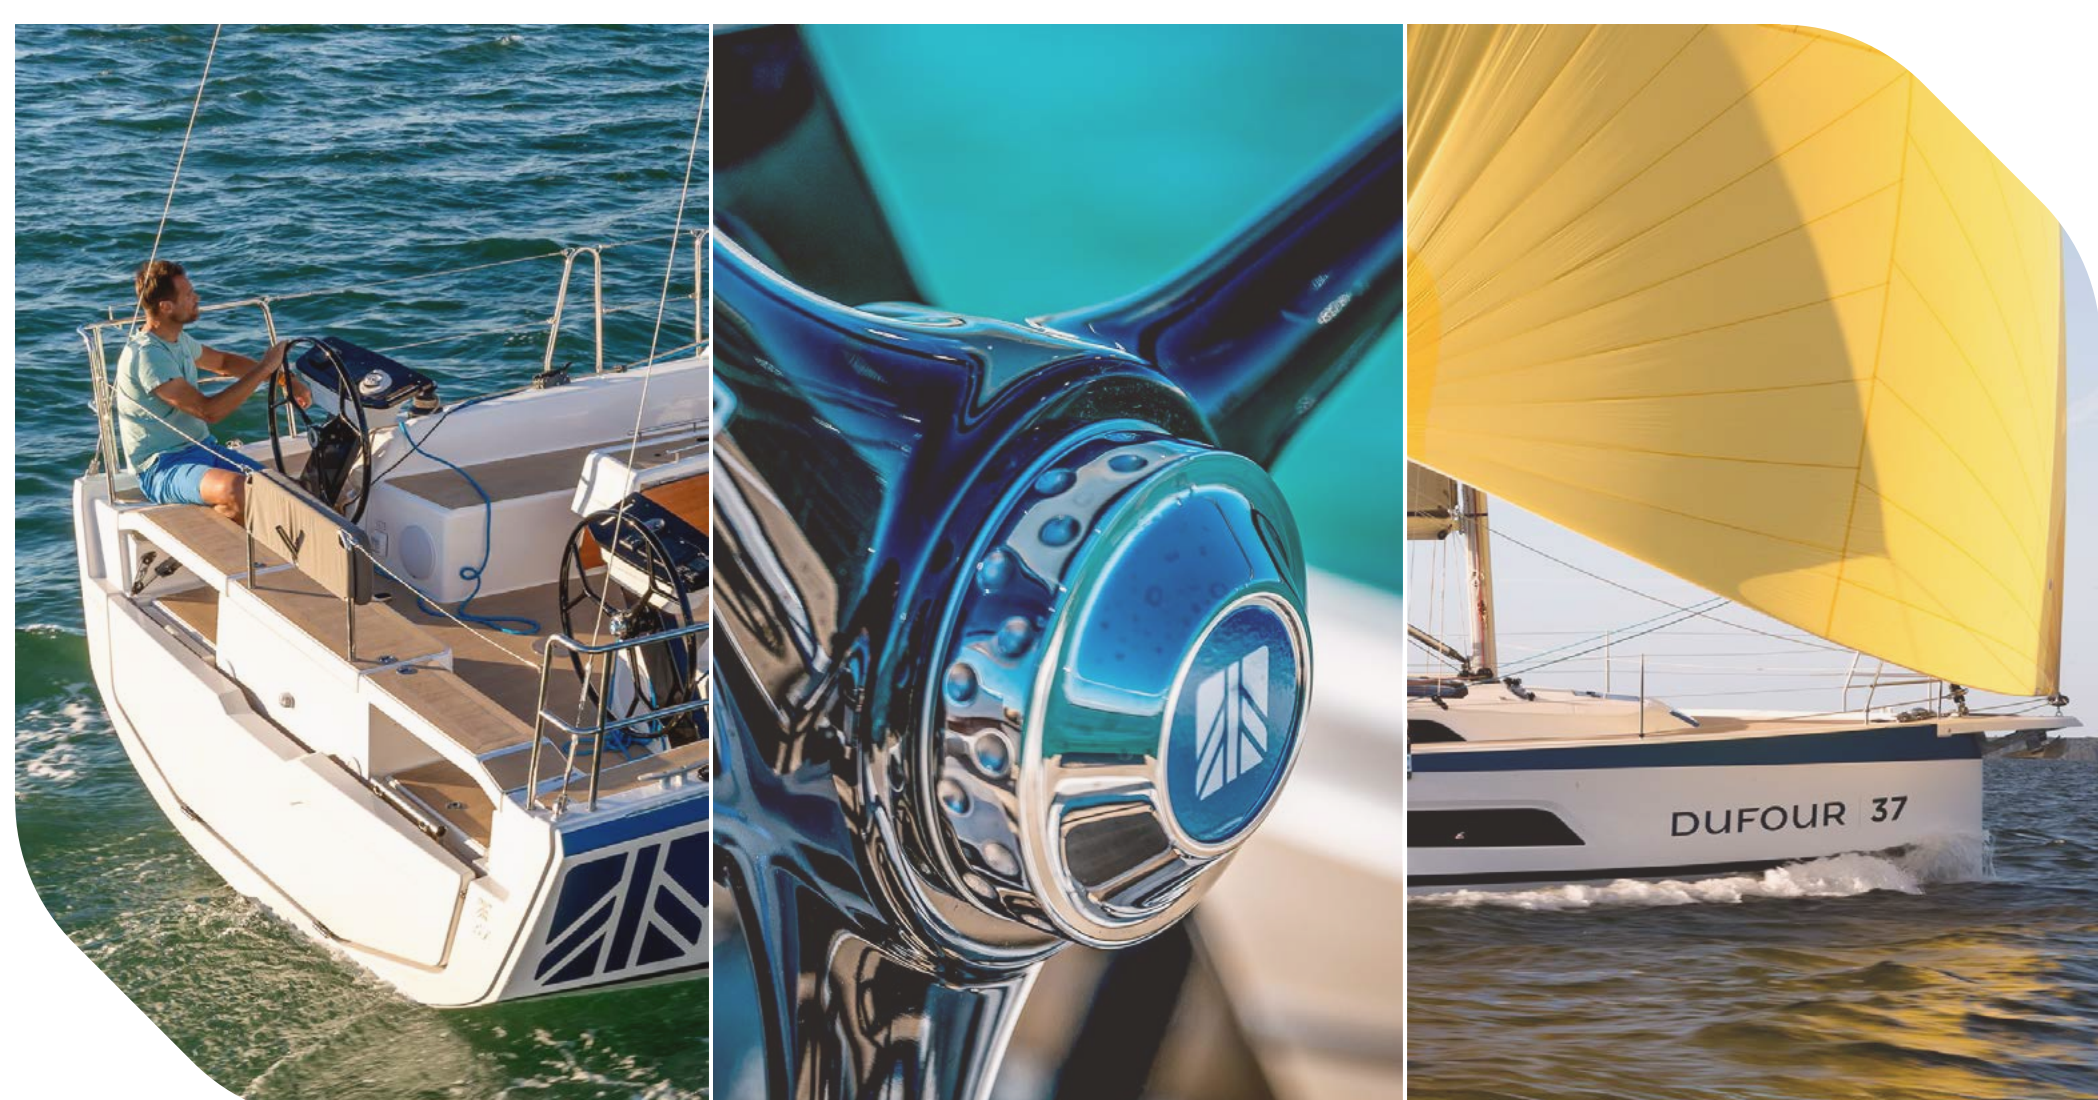

Optimized livability & exceptional light

A voluminous bow frees up interior space, offering a true forward cabin and up to 5'11" headroom.

The Dufour 37 features 30 to 60% more window surface compared to other yachts in its category.

Three ways of sailing

Equipment packs allow the yacht to be tailored to every sailing program.

Dufour 37

SPECIFICATIONS

Layouts

The Dufour 37 is available in two configurations: a two-cabin version with a large head and exterior storage, or a three-cabin version with one head, designed to adapt to every cruising program.

Features

Key specifications of the Dufour 37 highlight the balance between compact design, volume, and performance.

Dufour 41

Feel the wind.
Become one with the elements.

The Dufour 41 embodies the meeting point between performance sailing and refined living at sea. A yacht that blends the pleasure of sailing with elevated onboard comfort, fully aligned with the Dufour philosophy: living outdoors, feeling the elements, and embracing every moment of freedom.

[Exterior](#) | [Interior](#) | [Highlights](#) | [Specifications](#)

Between performance and comfort, the perfect balance

Designed by Umberto Felci with designer Luca Ardizio, the Dufour 41 features a pronounced chined hull and strong freeboard. This design delivers an ideal balance of stability, performance, and comfort. Its powerful rig turns every breeze into natural acceleration. The self-tacking jib simplifies daily maneuvering. As an option, a genoa on tracks provides additional power and upwind capability for longer passages. At the helm, the single rudder delivers precise and direct sensations. A yacht that remains easy to handle, even with a reduced crew.

Living outside, fully

The Skylounge cockpit of the Dufour 41 is spacious, open, and naturally positioned between sailing operations and relaxation moments. Movement on board is fluid, with open volumes that encourage every moment of life at sea.

At anchor or underway, it becomes a true social space — hands still salty, eyes fixed on the horizon.

Dufour 41

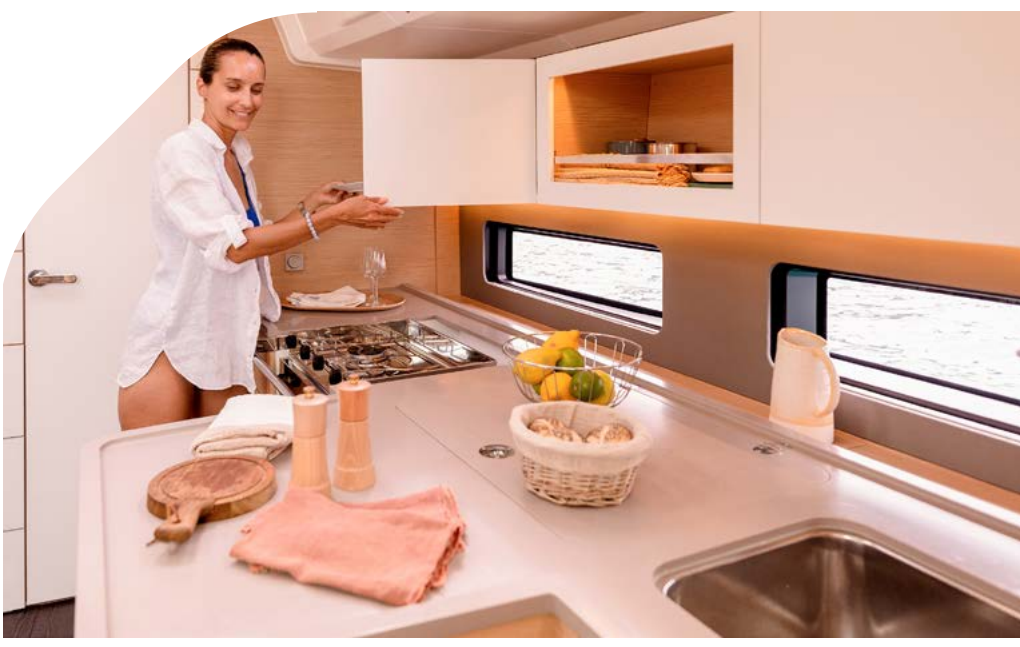

A bright and functional interior

Inside, everything is designed to combine ergonomics, light, and comfort. Generous volumes, headroom, and natural brightness create an open and calming atmosphere.

Available in three- or four-cabin layouts with two or three heads, the Dufour 41 is one of the few yachts in its category to offer up to four cabins and accommodate up to ten guests on board.

In the two-cabin version, the owner's cabin features a large bed, easy circulation, and generous storage rarely found on yachts of this size.

41

Highlights

A balanced sailing

A well-balanced sail plan, chined hull, and precise single rudder deliver smooth, stable, and engaging sailing. A yacht built for racing in performance configuration.

A cockpit designed for all uses

A large, comfortable outdoor space designed for both sailing operations and shared moments, accommodating up to ten guests. An open living area connected to the Seaside Kitchen and swim platform.

A Exceptional livability and light

The Dufour 41 offers up to 4 cabins and 10 berths

It features 30 to 60% more window surface compared to yachts in its category.

Three ways of sailing

Equipment packs allow the yacht to be adapted to every sailing program.

Dufour 41

Dufour 44

The taste of fresh air. The scent of sea spray.

A fast bluewater cruising yacht, the Dufour 44 embodies the essence of instinctive sailing. Powerful, precise, and alive, it awakens the senses with every maneuver. Its natural balance and ease at sea reflect Dufour's Instinctive Sailing philosophy: feeling the wind, reading the sea, and sailing with intuition.

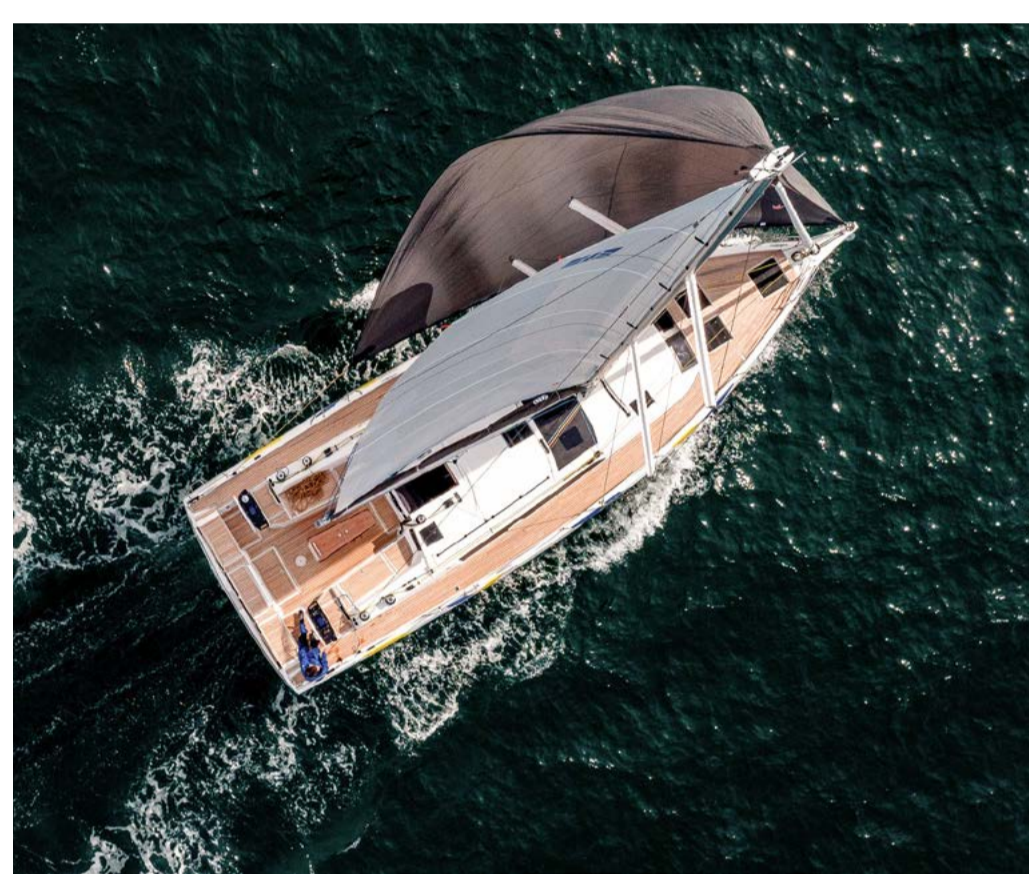

A 43'0" yacht ready for offshore passages.
More space to expand horizons.

Sailing further Seeing bigger horizons

With its high freeboard, wide side decks, and secure cockpit, the Dufour 44 immediately inspires confidence. It covers miles effortlessly, without ever compromising the pleasure of sailing. Its powerful rig and well-balanced sail plan turn every breeze into instant acceleration. The self-tacking jib simplifies everyday maneuvering. As an option, a genoa on tracks delivers more power and upwind performance for longer passages. Its hull ensures controlled heeling and constant feedback at the helm.

Living outside, with added comfort.

The Skylounge cockpit of the Dufour 44 offers generous space and smooth circulation for superior comfort.

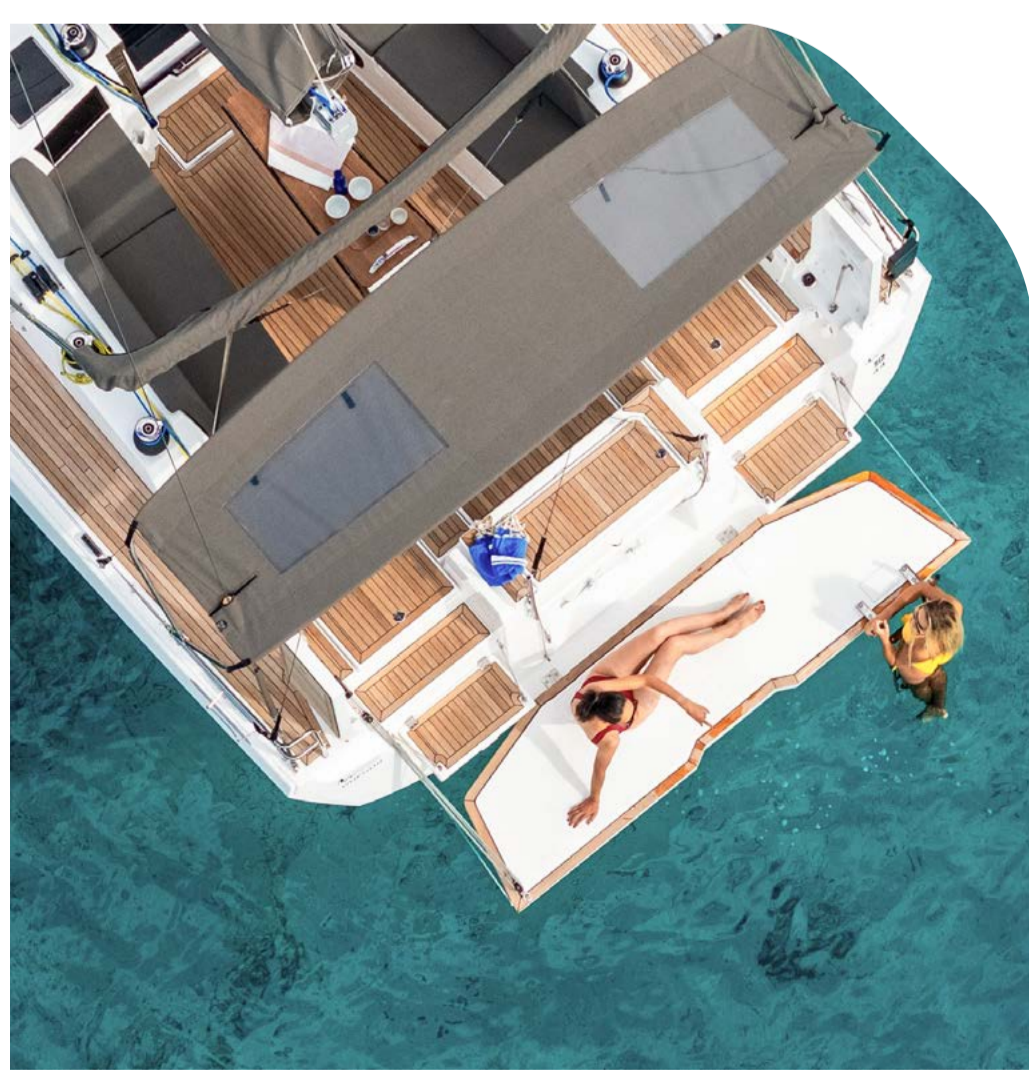

Designed for both maneuvering and relaxation, it adapts to every moment of sailing.

The Seaside Kitchen, relaxation areas, and aft platform naturally extend life outdoors.

The Skylounge deck, available as an option, creates a new relaxation space with panoramic views.

The optional hardtop integrates seamlessly into the yacht's design, offering sun protection while maintaining clear visibility of the sail plan.

On board, every moment invites you to fully enjoy the sea.

Dufour 44

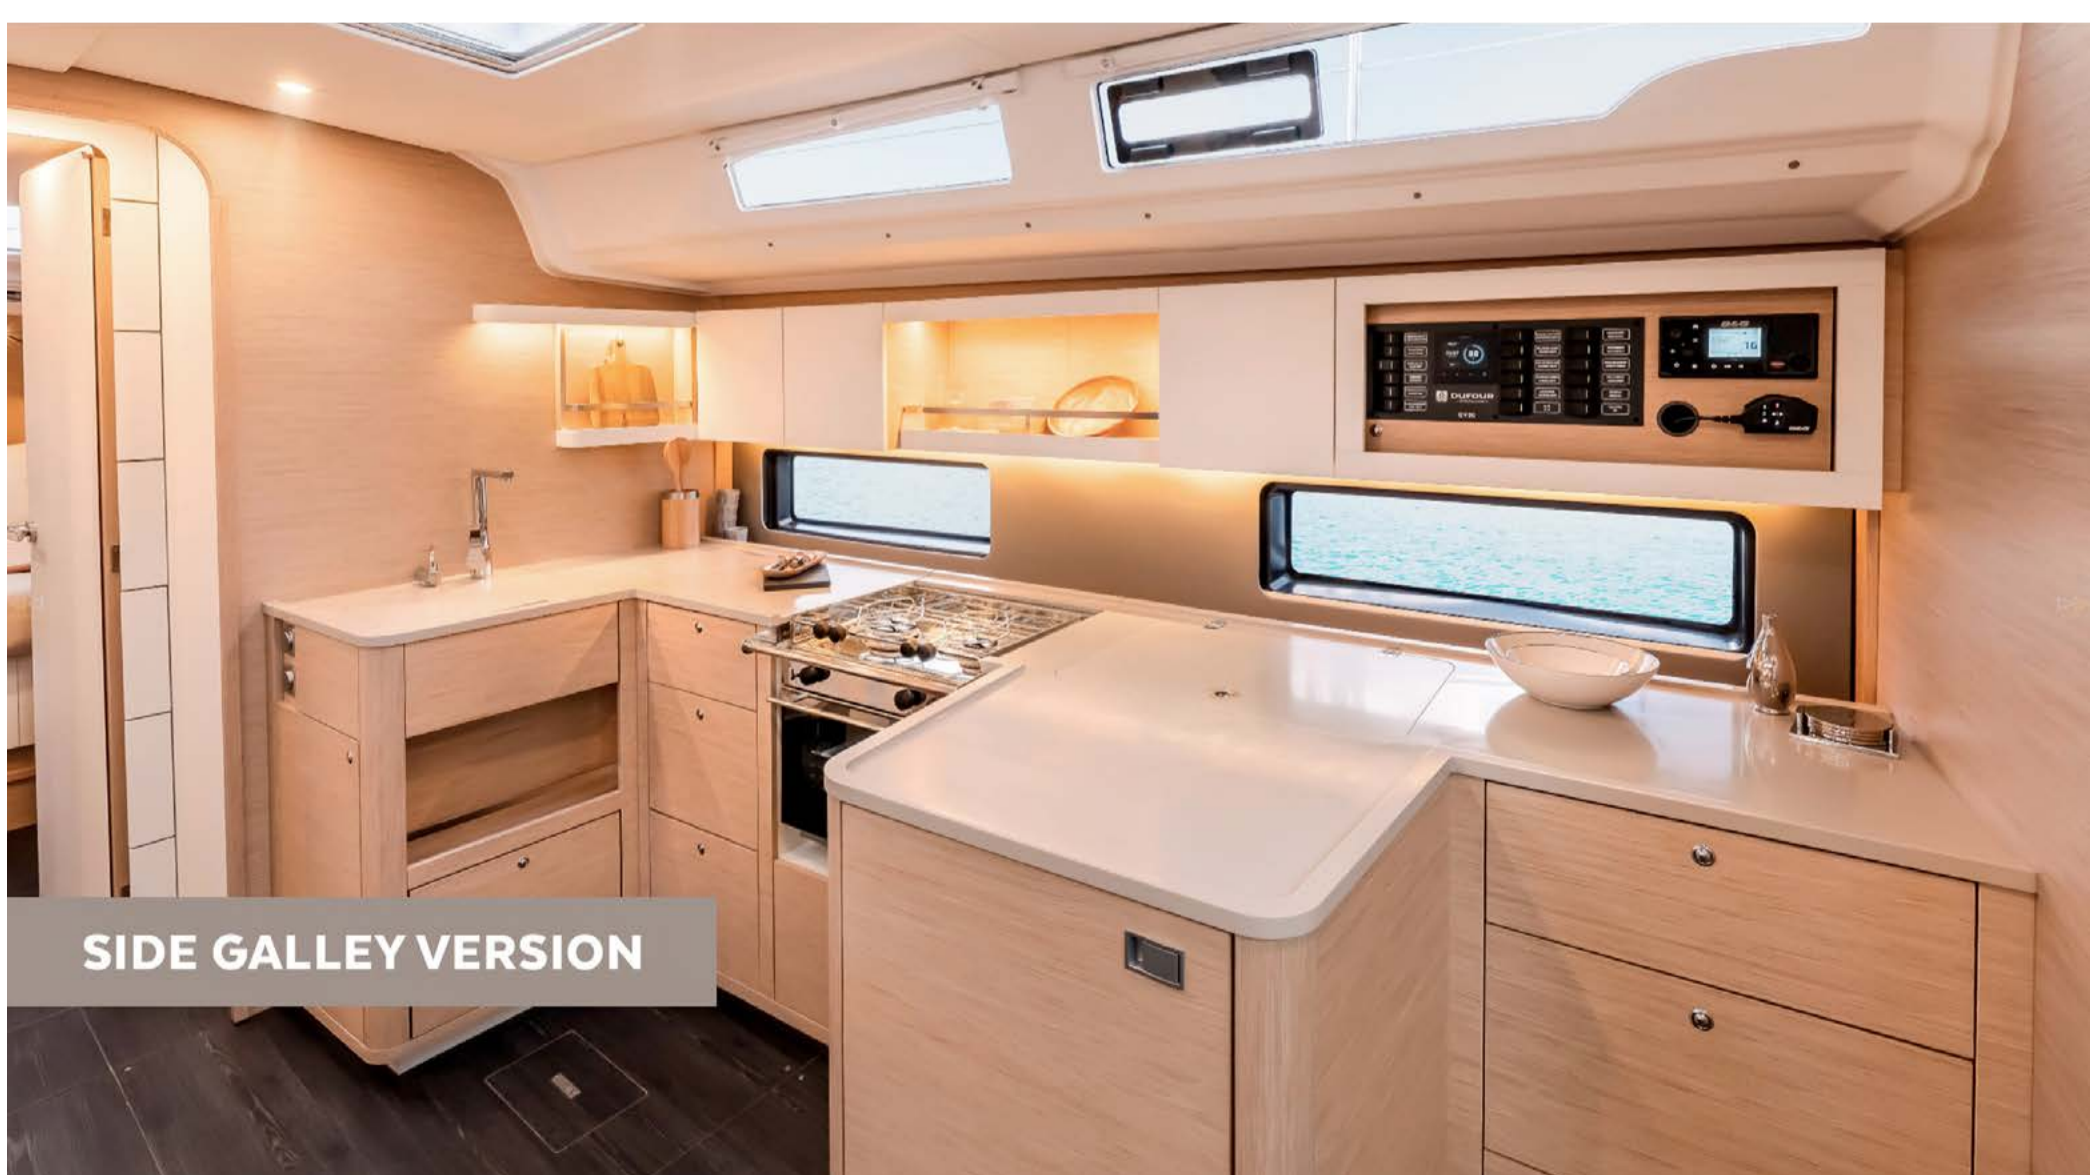

A bright and welcoming interior

Available in three- or four-cabin layouts with separate heads and showers, the Dufour 44 offers a functional and comfortable interior.

At the center, the hexagonal saloon table creates a true shared living space, extended by modular seating.

The Dufour 44 features 30 to 60% more window surface compared to yachts in its category. More generous volumes, smoother circulation, and constant natural light: an interior designed for shared living, simply — at sea or at anchor.

44

Highlights

A balanced design

Increased hull beam and generous volumes create superior living space for a more open and comfortable cruising experience.

A Felci-designed hull, a sleek rig, and an optimized sail plan deliver smooth, stable, and high-performance sailing.

Seamless connection between cockpit and swim platform

A spacious Skylounge cockpit designed for both sailing operations and shared moments, with easy dual access to the aft swim platform on both port and starboard sides.

A convivial and modular saloon

A saloon organized around a hexagonal table accommodating up to eight guests, with modular seating adapted to every moment onboard

Three ways of sailing

Equipment packs allow the yacht to be adapted to every sailing program.

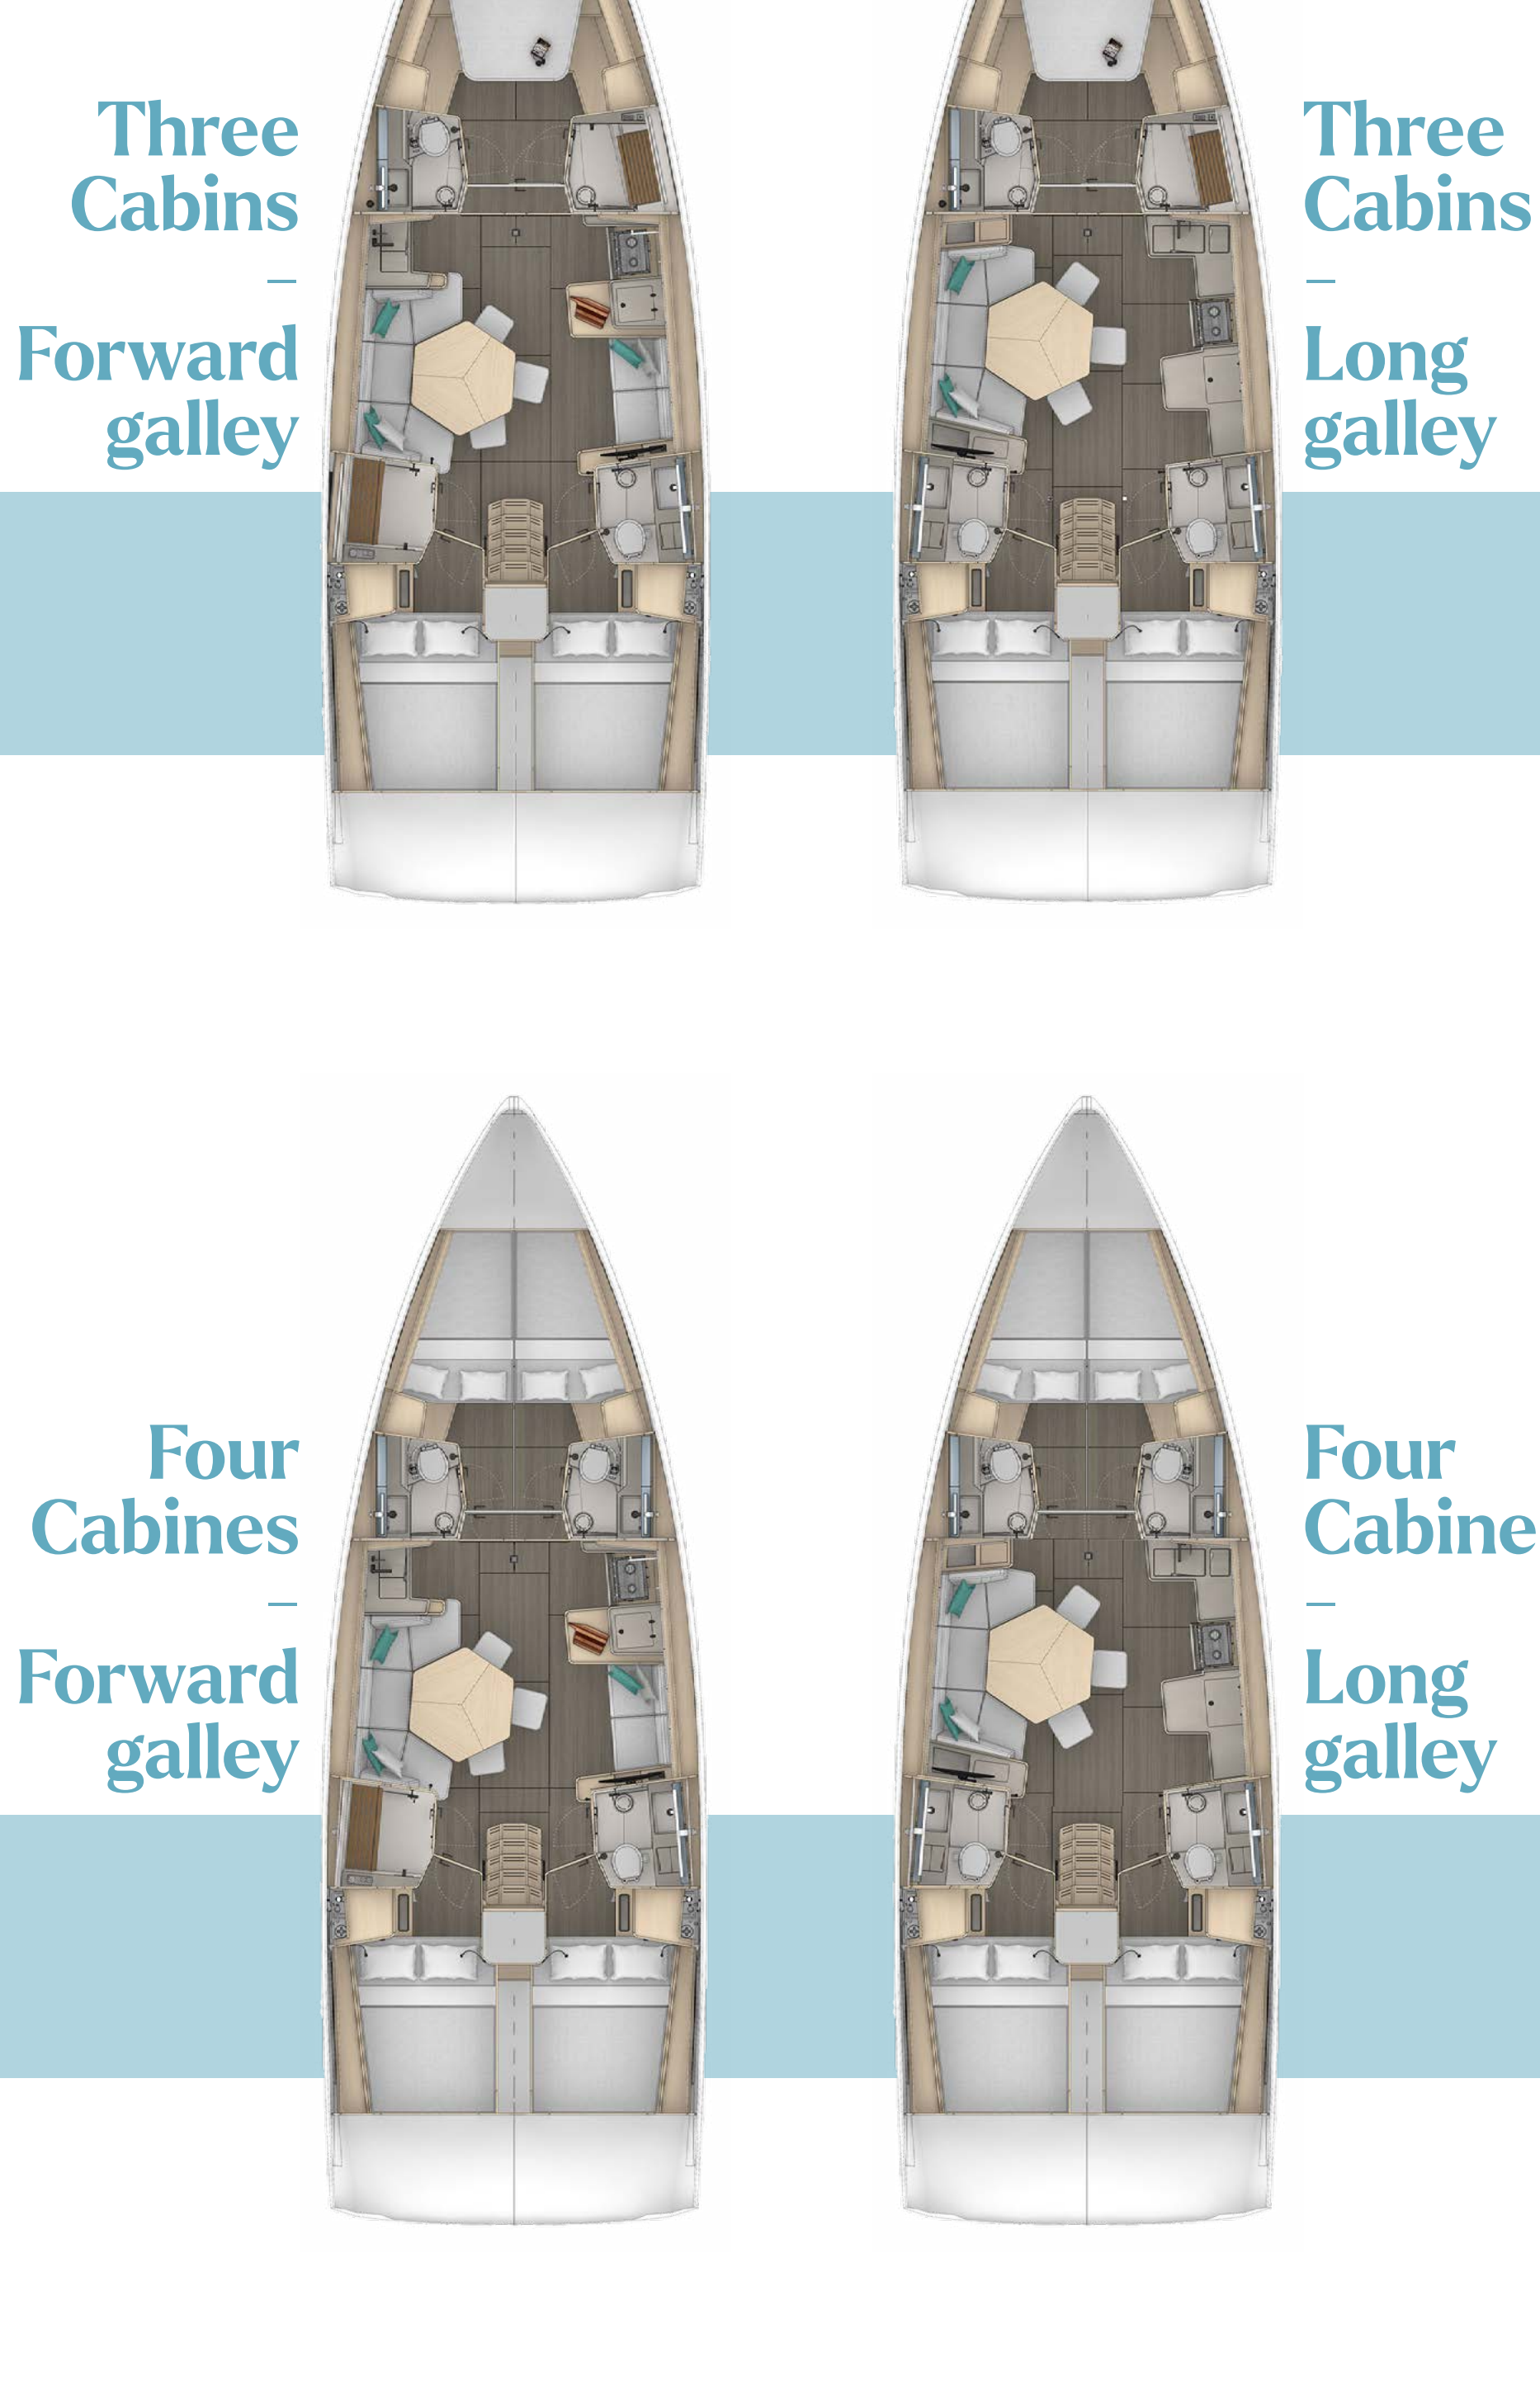

Dufour 44

SPECIFICATIONS

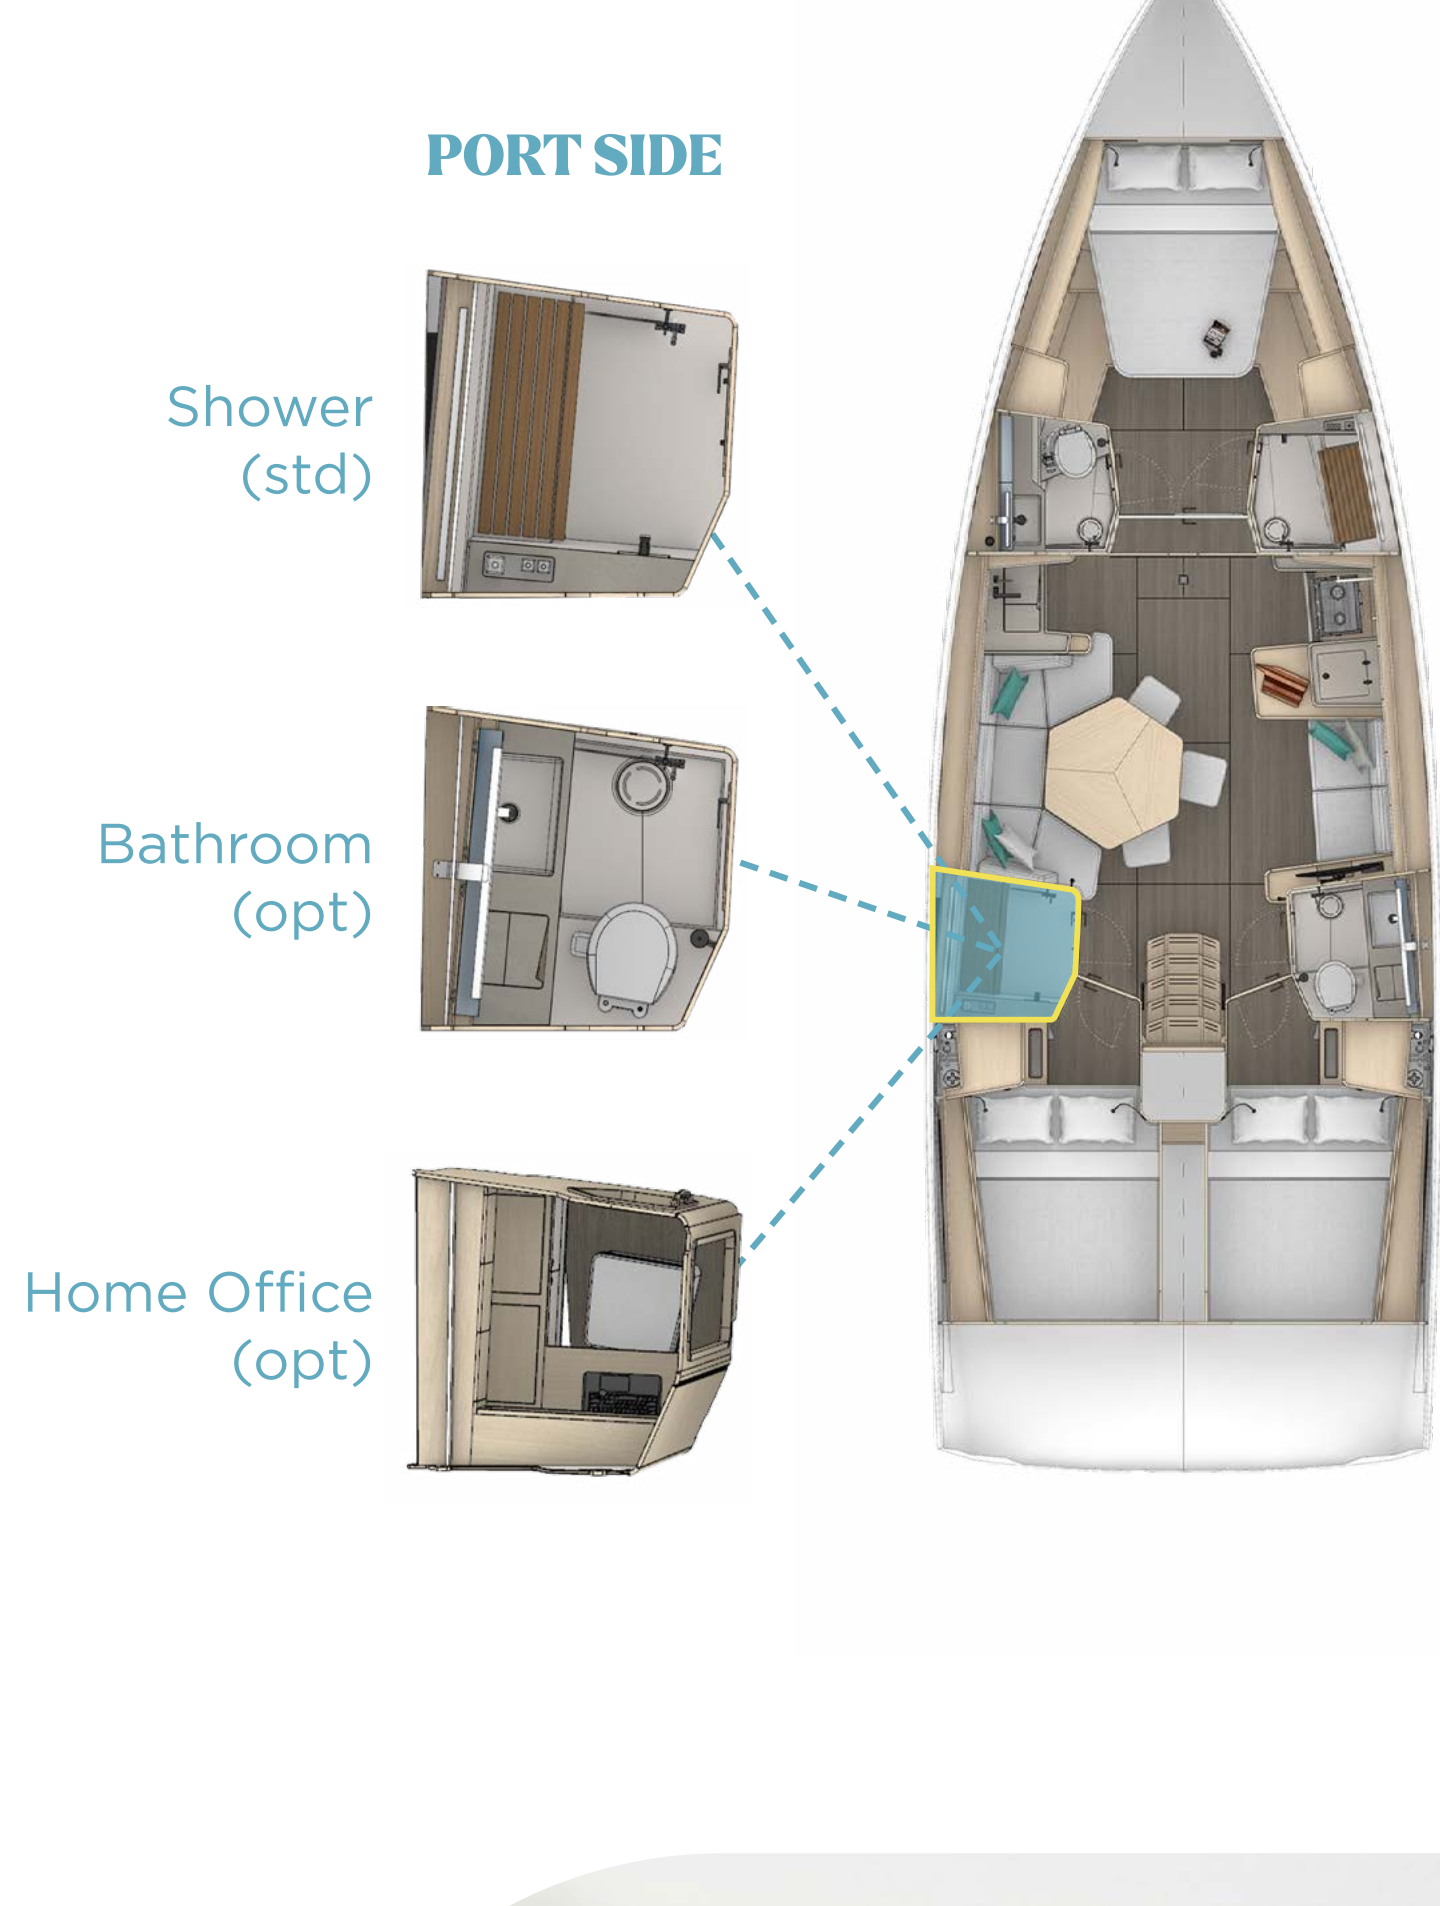

Layouts

The Dufour 44 is available in four layout versions: 3 or 4 cabins with separate shower heads, and longitudinal or forward galley configurations, to adapt to every sailing program.

Dufour 48

More than a yacht,
a way of life offshore.

The Dufour 48 opens the door to true bluewater cruising. A large cruising yacht that transforms the ocean into a living space. On board, time slows down. Miles become smoother. The wind becomes a companion.

A 50'2" yacht designed to go far.

The horizon as your destination

Designed by Umberto Felci with designer Luca Ardizio, the Dufour 48 extends the balance between performance and comfort, delivering the pure sailing pleasure that defines Dufour. Its powerful hull, balanced lines, and precise helm response provide direct sensations and smooth, stable control — even on long passages. Sailing becomes natural, instinctive.

Every day at sea stretches into lasting memories.

Three outdoor living spaces

The Dufour 48 organizes life on board around three complementary exterior areas. The Skylounge cockpit is fully modular, allowing a seamless transition from sailing to relaxation. Convertible half-tables become sunbeds, while fluid circulation provides direct access from the companionway to the aft platform.

At the stern, the Seaside Kitchen becomes a social hub right at the water's edge. At the bow, the Skylounge deck offers a panoramic 360° sunbathing area. An optional hardtop provides sun protection while preserving an open, airy feel. A fluid layout designed to extend the offshore experience.

Dufour 48

Living on board, naturally

On the Dufour 48, every space is designed for long-term living at sea.

The saloon, centered around a polygonal table, becomes a flexible and convivial living area for up to ten guests. Depending on configuration, it adapts to different uses: forward galley with movable seating, or longitudinal galley for an expanded living space.

Available in three- or four-cabin layouts, the Dufour 48 is designed for long-distance cruising. In the owner's version, the forward cabin features a separate head and shower. In the four-cabin layout, three bathrooms ensure comfort and autonomy. Optional modules — Pullman cabin, office, laundry, storage — enhance adaptability.

A skipper cabin underlines a level of autonomy rarely found in this size category. Generous window surfaces — among the largest in its class — flood the interior with light and open it to the sea.

An open interior, designed for living the ocean.

48

Highlights

Intuitive navigation

A powerful hull, balanced sail plan, and reassuring offshore behavior for long-distance cruising.

Large outdoor spaces dedicated to relaxation

The Skylounge Cockpit and the Skylounge Deck create two large, complementary spaces designed to let you fully enjoy life on board.

High level of customization

Three or four cabins, longitudinal or forward galley, skipper cabin, modular layouts :

The Dufour 48 adapts to every way of living at sea.

Three ways of sailing

Equipment packs allow the yacht to be adapted to every sailing program.

37 | 39 | 41 | 44 | 48 | 54

Dufour 54

The sea,
in all its grandeur.

The Dufour 54 embodies the essence of large cruising yachts according to Dufour. A sleek, silent, and perfectly controlled yacht where power meets serenity. On board, the sea changes scale.

Time expands.

The horizon becomes a territory.
A 55'3" yacht designed for all voyages.

Sailing with absolute clarity

Designed by Umberto Felci with designer Luca Ardizio, the Dufour 54 combines seaworthy performance with refined comfort.

Its balanced hull ensures smooth motion at sea and controlled power. The optimized sail plan allows it to maintain near true wind speed, even in light air.

At the helm, the connection is direct, precise, and natural. The sea is read intuitively, the yacht responds instantly.

Equipped with electric winches, the Dufour 54 maintains effortless and intuitive handling, true to Dufour's DNA.

Living outside, on another scale

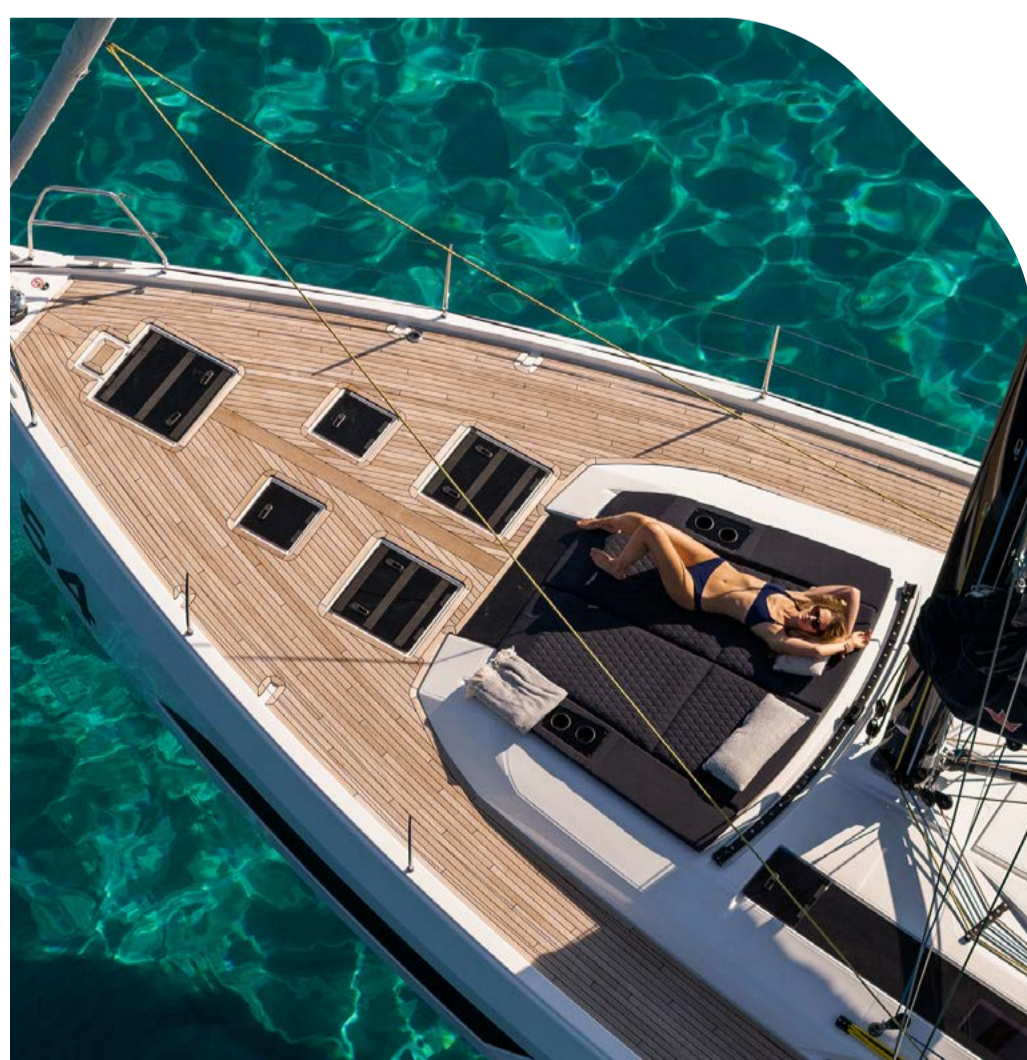

The Dufour 54 elevates the concept of onboard living.

The Skylounge cockpit, vast and structured, offers an open and modular living space. U-shaped seating and convertible tables transform into sunbathing areas, creating a central space that transitions naturally from sailing to relaxation.

At the bow, the Skylounge deck — fitted with adjustable backrests — becomes a panoramic lounge, open to sea and sky. A quiet space between light and horizon.

At the stern, the Seaside Kitchen, equipped with a fully functional outdoor galley, extends life right to the water's edge. Cooking, sharing, living outdoors.

Dufour 54

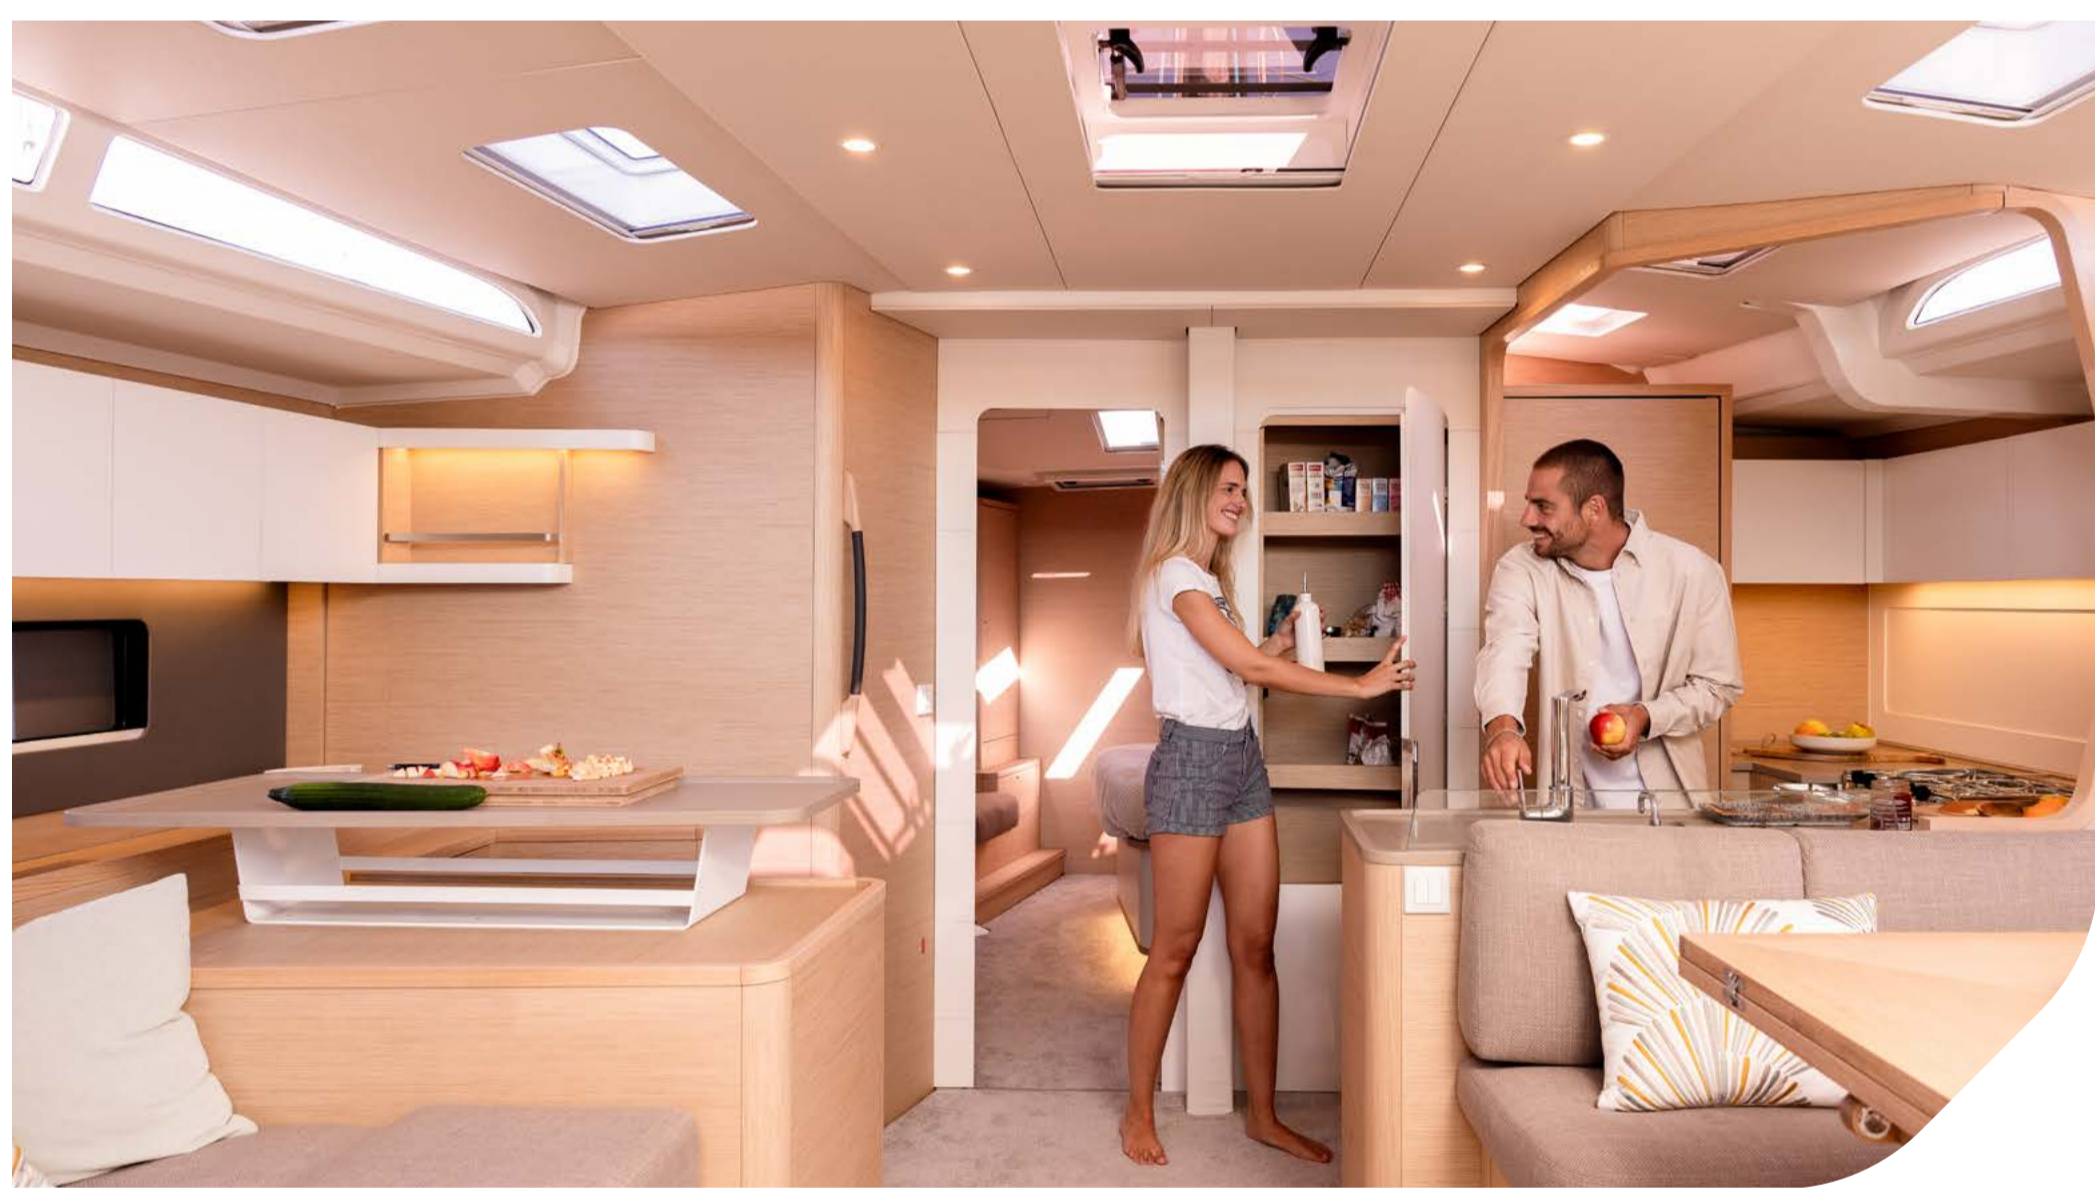

Living the sea

On board the Dufour 54, space becomes an experience.

Its wide beam unlocks generous volumes, comparable to much larger yachts. The saloon is designed as a true living space, punctuated by alcoves that create a rhythm between intimacy and openness.

A feeling of light, flow, and openness.

In the owner's suite version, the forward cabin offers an unprecedented level of comfort: king-size yacht-positioned bed, sofa, spacious head, and abundant natural light. A private space open to the sky and sea.

Available in multiple configurations, the Dufour 54 adapts to every sailing program, including the longest offshore passages.

An interior designed to last.
A place to fully inhabit.

54

Highlights

Life on the open sea

A synthesis of control, comfort, and autonomy, shaped by Dufour's expertise and the collaboration between Umberto Felci and Luca Ardizio, making every voyage smooth, calm, and effortless.

Signature outdoor spaces

The Skylounge cockpit, Skylounge deck, Seaside Kitchen, and optional rigid hardtop define a fully outdoor-oriented lifestyle, with maximum comfort at sea.

Living spaces worthy of larger yachts

A widened beam and optimized hull design create interior volumes – in both saloon and owner's suite – comparable to significantly larger yachts.

Three ways of sailing

Equipment packs allow the yacht to be adapted to every sailing program.

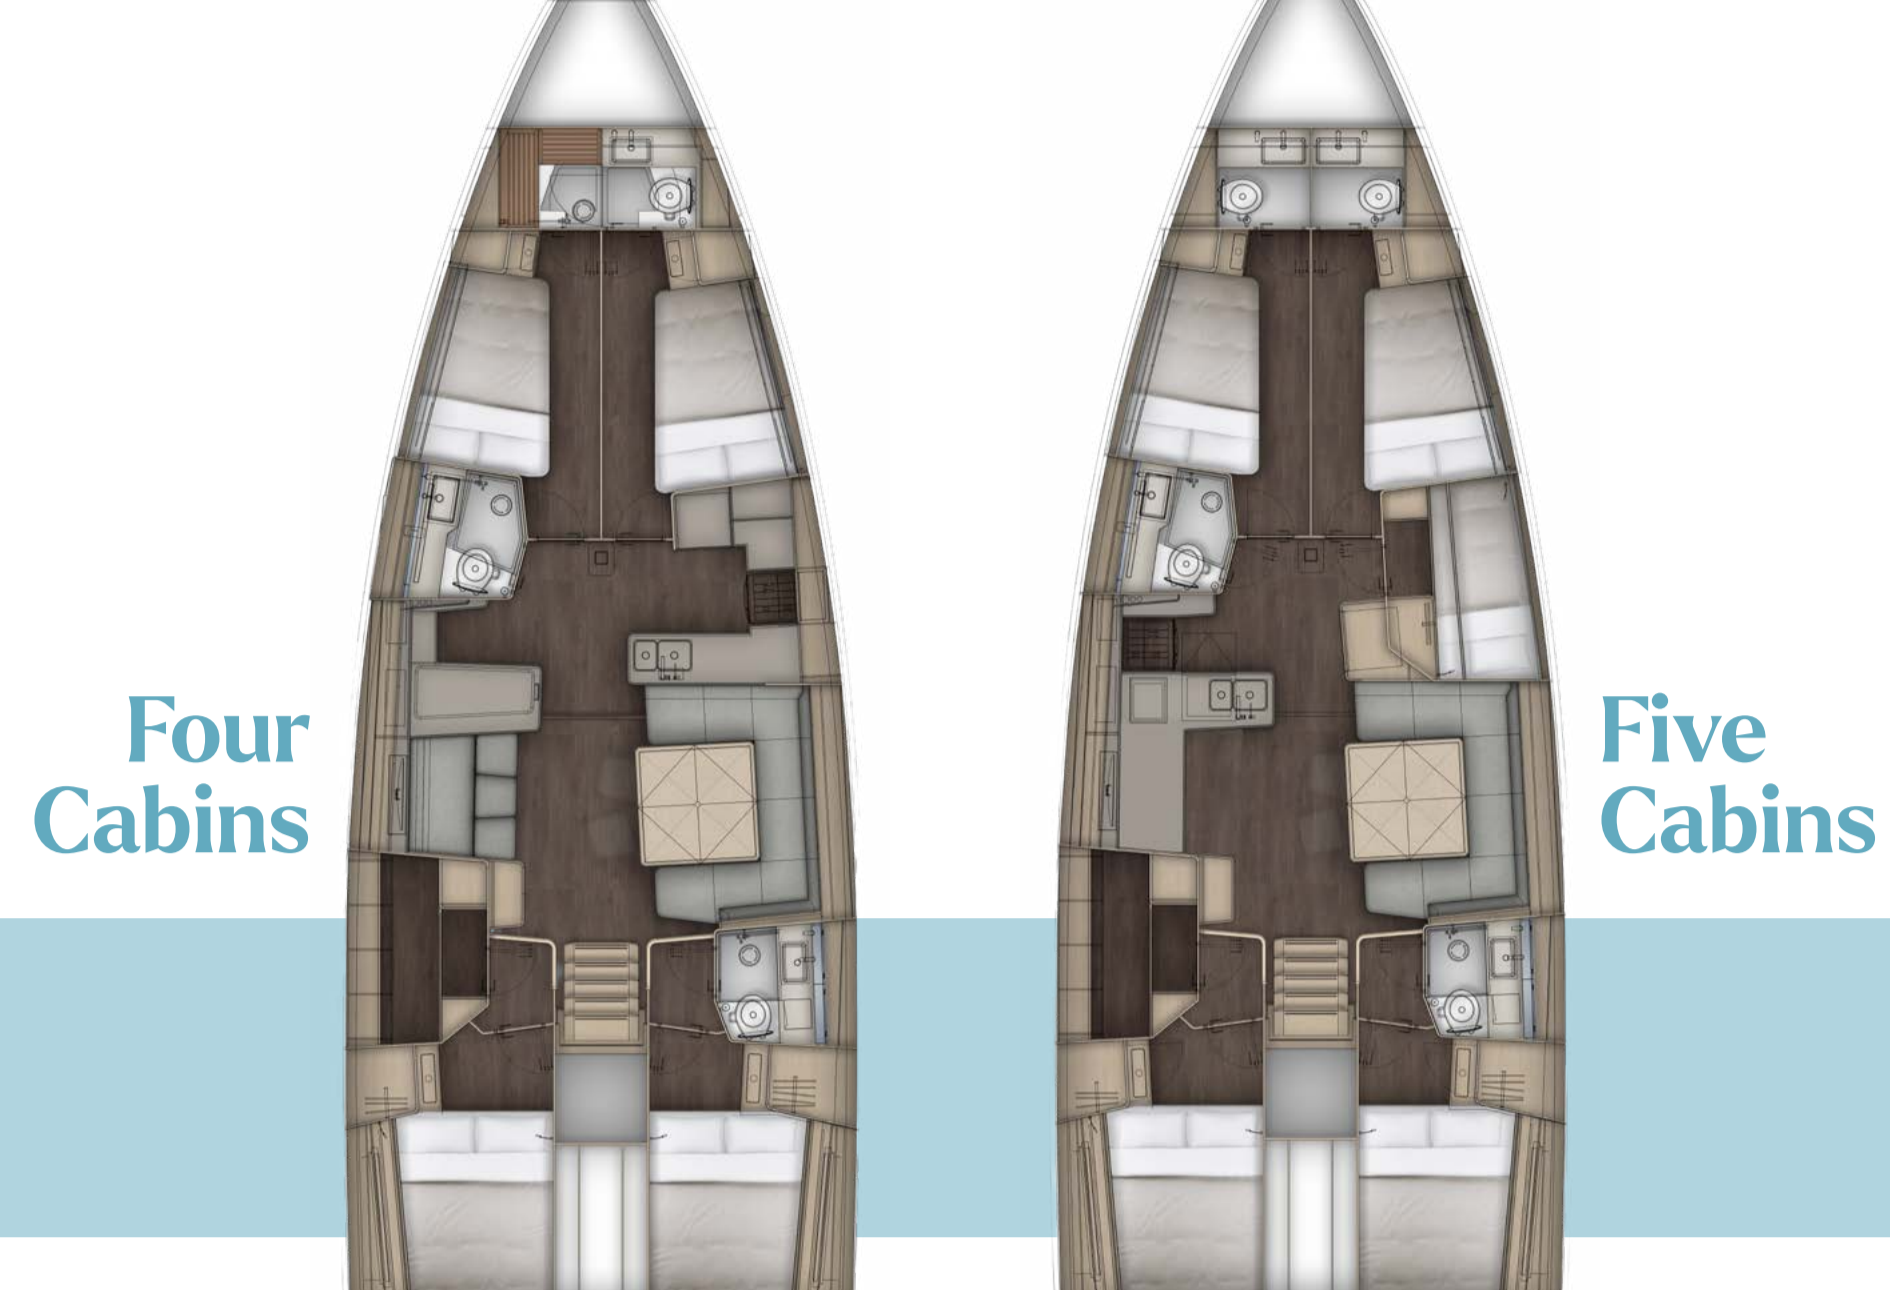

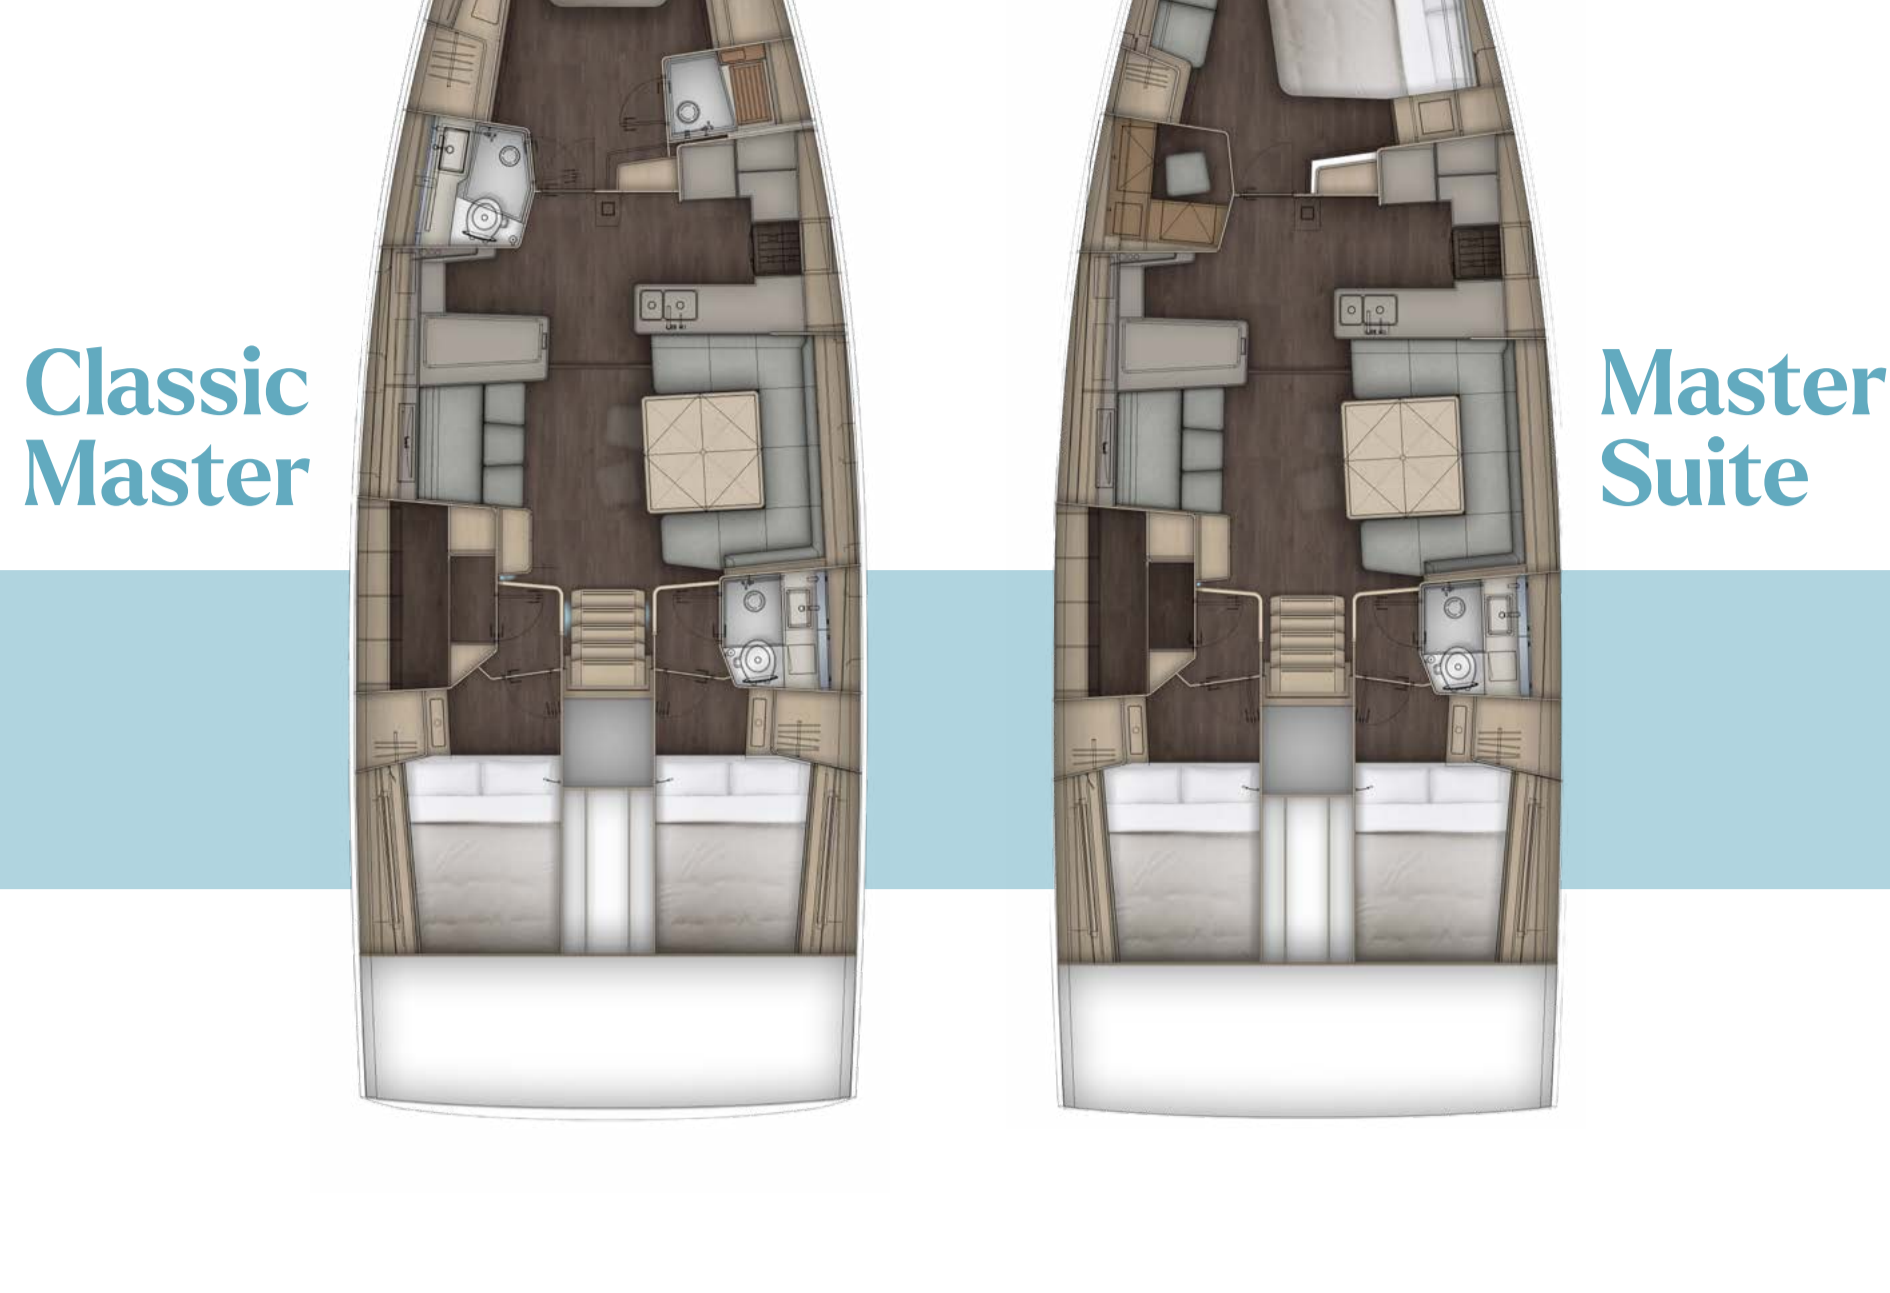

Dufour 54

Our commitments, for tomorrow

Boating involves much more than just using a boat. It involves a way of designing, building, and passing on knowledge.

At Dufour, our CSR commitments are part of a comprehensive approach led by the Fountaine Pajot Group, with a clear priority: to accelerate the environmental transition while ensuring fair working conditions, the development of expertise, and our commitment to the local community.

DUFOUR OFFERS THE ODSEA+ PACK TO OPTIMIZE ENERGY MANAGEMENT ON BOARD YOUR YACHT AND PROVIDE ACCESS TO ALL THE SOLUTIONS FOR MORE SUSTAINABLE CRUISING.

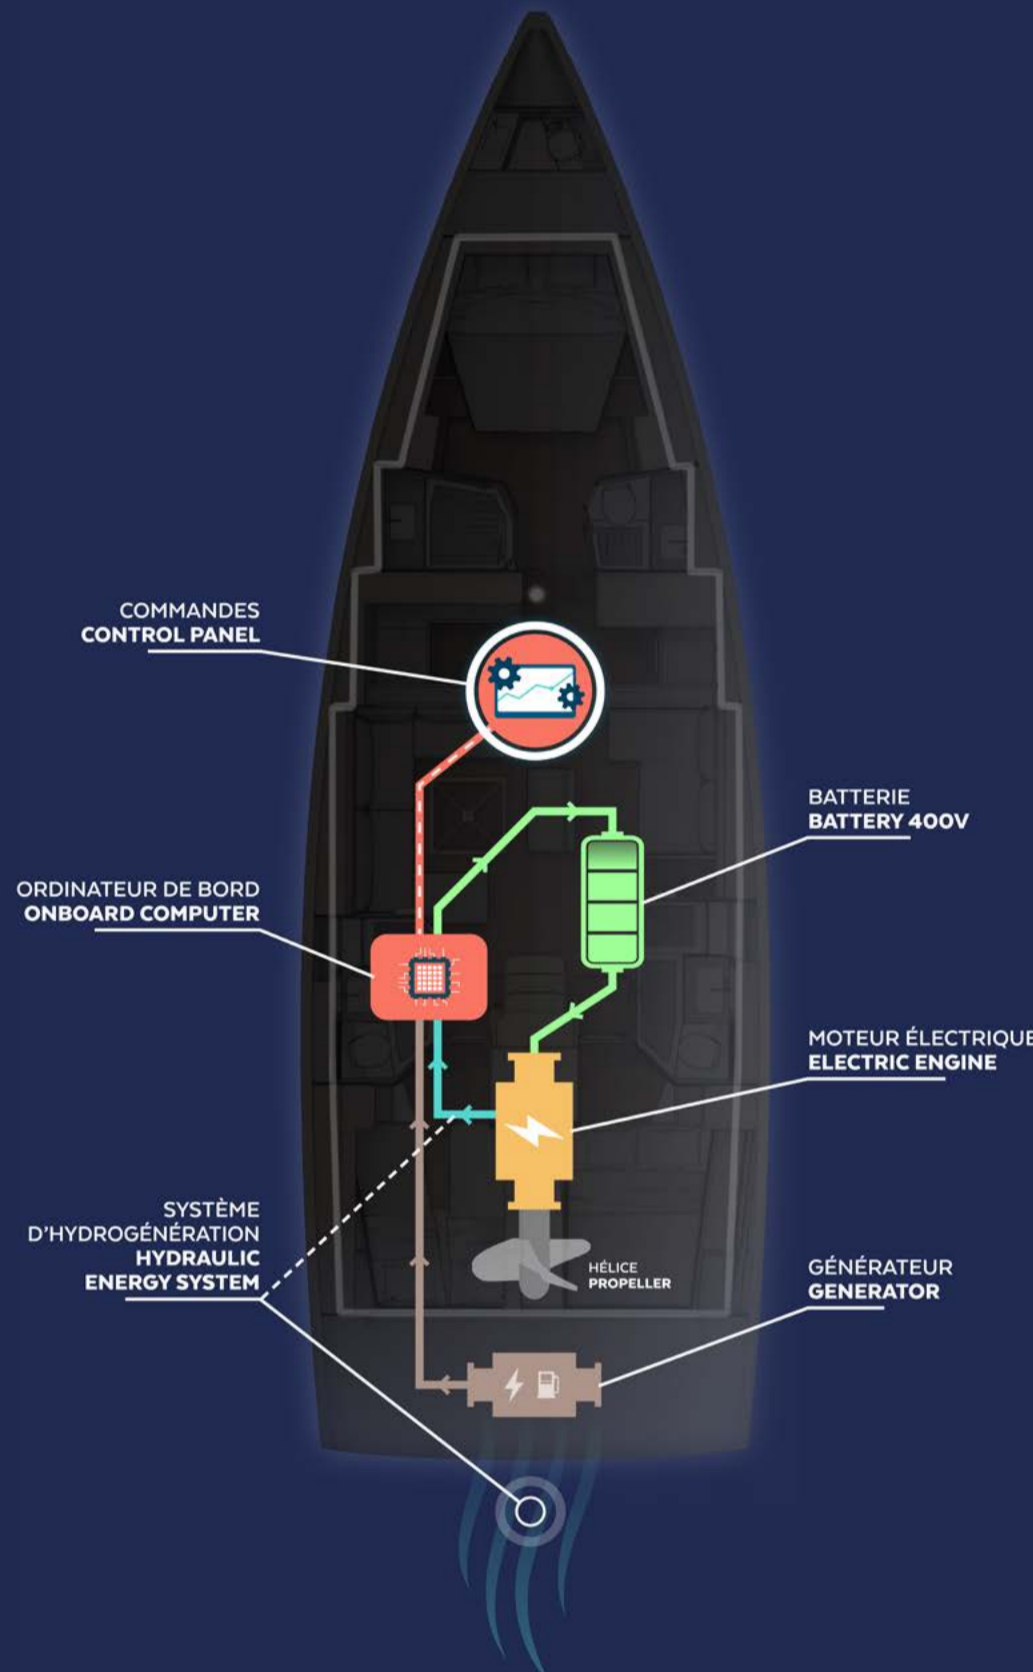

The ODSea+ solution is the result of a collaborative effort between the teams of the Fountaine Pajot Group and energy transition experts, supported by the **ODSea Lab** innovation platform.

Through advancements in electric propulsion, battery capacity, hydro-generation, and onboard energy management systems, Dufour offers an alternative to traditional combustion engines with the ODSea+ hybrid electric solution.

odsea+

Today, ODSEA+ is available on the Dufour 41, Dufour 44, Dufour 48, and Dufour 54, and will soon extend across the entire range. The ODSEA+ version is a concentration of smart technology designed to optimize onboard energy management and propulsion.

More autonomy. More comfort. More safety. More respect for the environment. With ODSEA+, our yachts go further – contributing to the path toward carbon neutrality by 2050.

MORE POSSIBILITIES, MORE ENERGY, MORE AUTONOMY TO SAIL FURTHER...

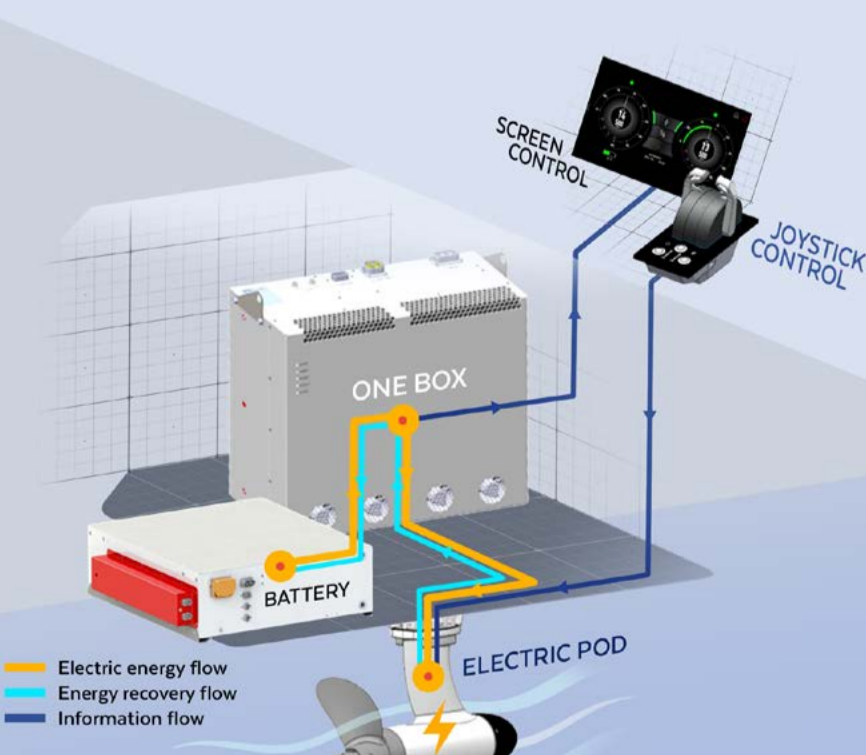

A SIMPLE, SECURE, AND PROVEN SYSTEM.

ODSea+ propulsion equipments

Fast-charging battery, Lithium Iron Phosphate technology

Compared to standard lithium-ion batteries:

- Longer lifespan: over 10 years.
- More stable and inherently safer performance.
- Resistant to temperature variations, humidity (IP68), and vibrations.

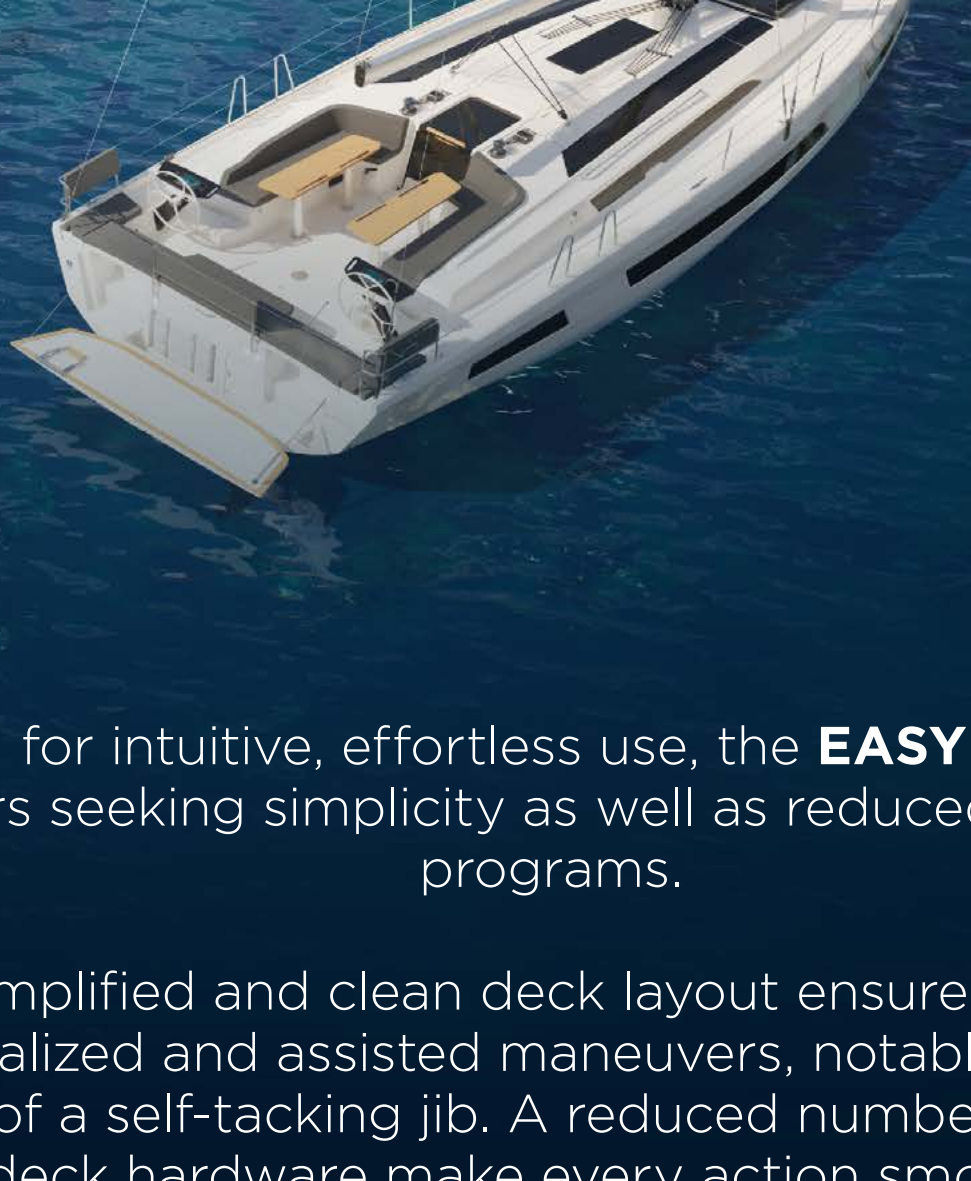

The sea, your way

Because no two seas are ever experienced in the same way, every Dufour can evolve according to individual preferences. A range of packs designed to enhance life on board and support every type of sailing experience.

Navigations packs

EASY Pack

Designed for intuitive, effortless use, the **EASY Pack** is aimed at owners seeking simplicity as well as reduced-crew sailing programs.

Its highly simplified and clean deck layout ensures quick handling, with centralized and assisted maneuvers, notably thanks to the integration of a self-tacking jib. A reduced number of winches and optimized deck hardware make every action smoother and more accessible.

Onboard circulation is also improved, with fewer lines on deck, enhancing both comfort and safety. This configuration enables relaxed sailing, even with limited experience or a small crew.

“The EASY Pack guarantees simple, comfortable, and accessible sailing for everyone.”

OCEAN pack

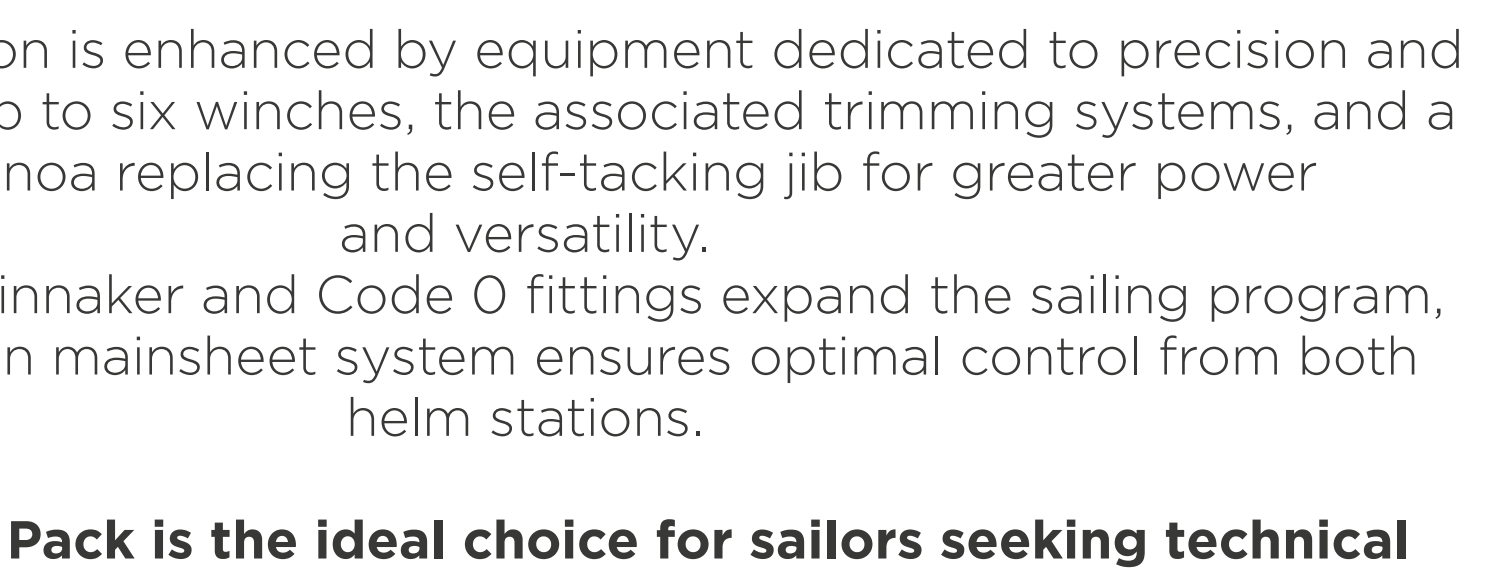

The **OCEAN Pack** is designed for sailors seeking the ideal balance between cruising comfort and enhanced performance.

It features a more traditional sail handling layout, delivering a more engaging sailing feel.

Halyards and the mainsail traveler are positioned on the coachroof, while sheets remain easily accessible from the helm stations, ensuring smooth and efficient sail control.

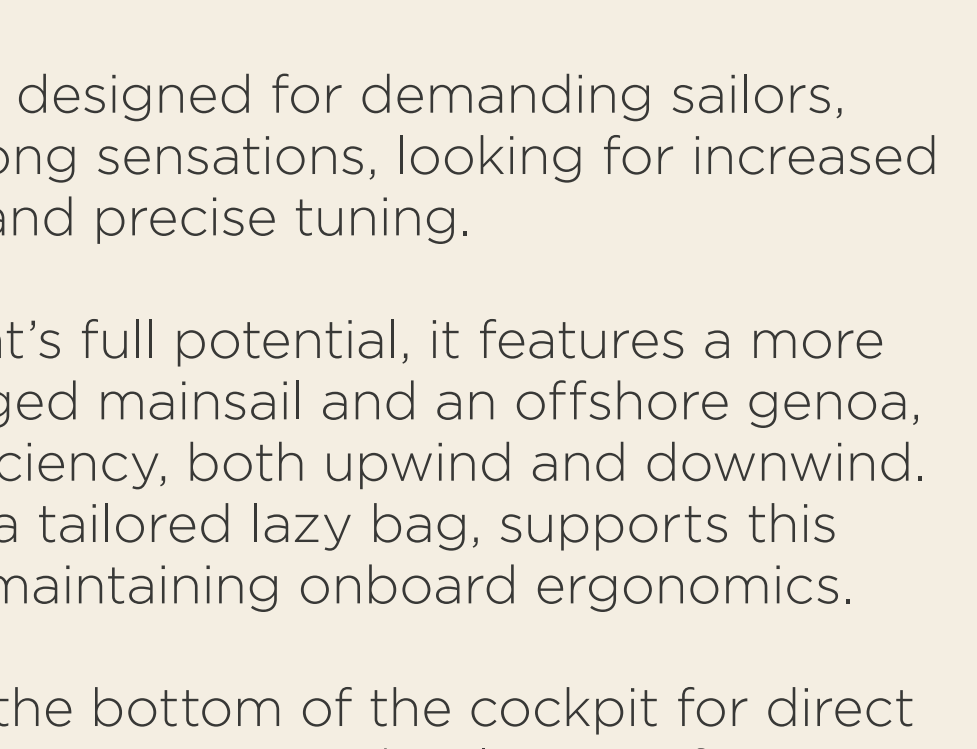

4 winchs

This configuration is enhanced by equipment dedicated to precision and performance: up to six winches, the associated trimming systems, and a Dacron genoa replacing the self-tacking jib for greater power and versatility.

Asymmetric spinnaker and Code 0 fittings expand the sailing program, while a German mainsheet system ensures optimal control from both helm stations.

“The OCEAN Pack is the ideal choice for sailors seeking technical sensations while maintaining simplicity, comfort, and pure sailing pleasure.”

PERFORMANCE Pack

The **PERFORMANCE Pack** is designed for demanding sailors, passionate about sailing and strong sensations, looking for increased performance and precise tuning.

Engineered to unlock the yacht’s full potential, it features a more powerful sail plan with an enlarged mainsail and an offshore genoa, delivering higher speed and efficiency, both upwind and downwind. A longer boom, paired with a tailored lazy bag, supports this performance upgrade while maintaining onboard ergonomics.

The mainsheet is positioned at the bottom of the cockpit for direct and precise control, ideal for more engaged sailing. Performance winches and blocks allow precise and efficient trimming, while an adjustable backstay enables fine tuning of the rig according to conditions.

“The PERFORMANCE Pack is a setup focused on speed, precision, and sailing pleasure, designed to fully unlock the yacht’s potential.”

The minds behind every Dufour

A Dufour yacht is born from a simple conviction:
leave nothing to chance.

From the first sketch to launch, every step is mastered in-house and enriched by a network of world-class partners. Naval architecture, engineering, composite processes, and specialized crafts all converge toward one ambition: designing premium, strong, and high-performance yachts.

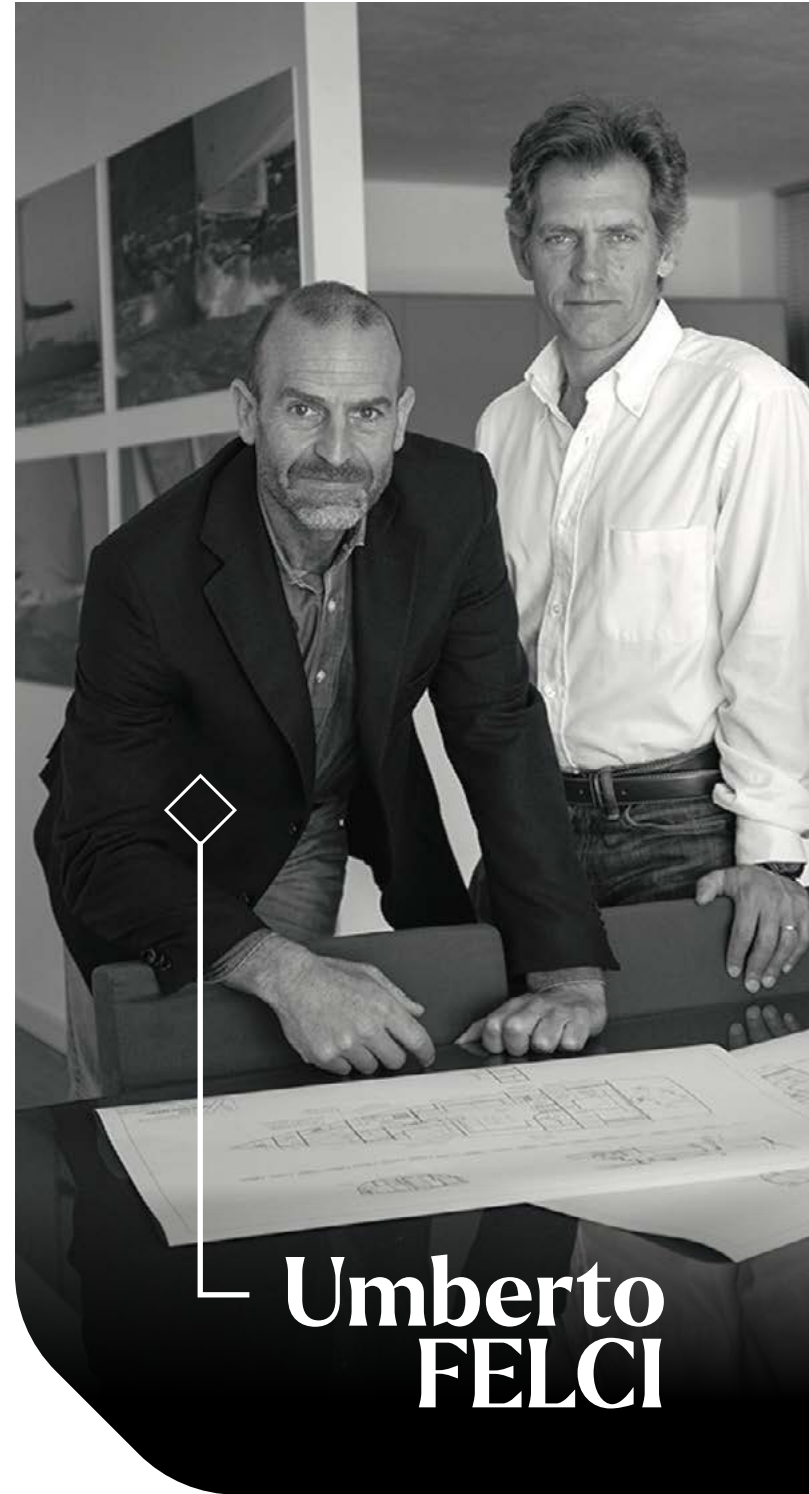

**An integrated know-how, rooted in La Rochelle.
Built to last. Designed to go far.**

A signature is never accidental.

Since 2002, Dufour has entrusted its naval architecture to Umberto Felci and Felci Yacht Design. Over twenty-five years of continuous collaboration — a rare continuity in the yachting industry.

Three generations and 38 models designed with a single guiding principle: deliver more volume and comfort while preserving perfect hull balance. Optimized wetted surface. Stability that generates power. Smooth performance across all sailing conditions. A direct, instinctive feel at the helm.

Umberto
FELCI

This continuity creates a recognizable identity across the entire range. From the Dufour 37 to the Dufour 54, the sensation remains consistent.

Luca
ARDIZIO

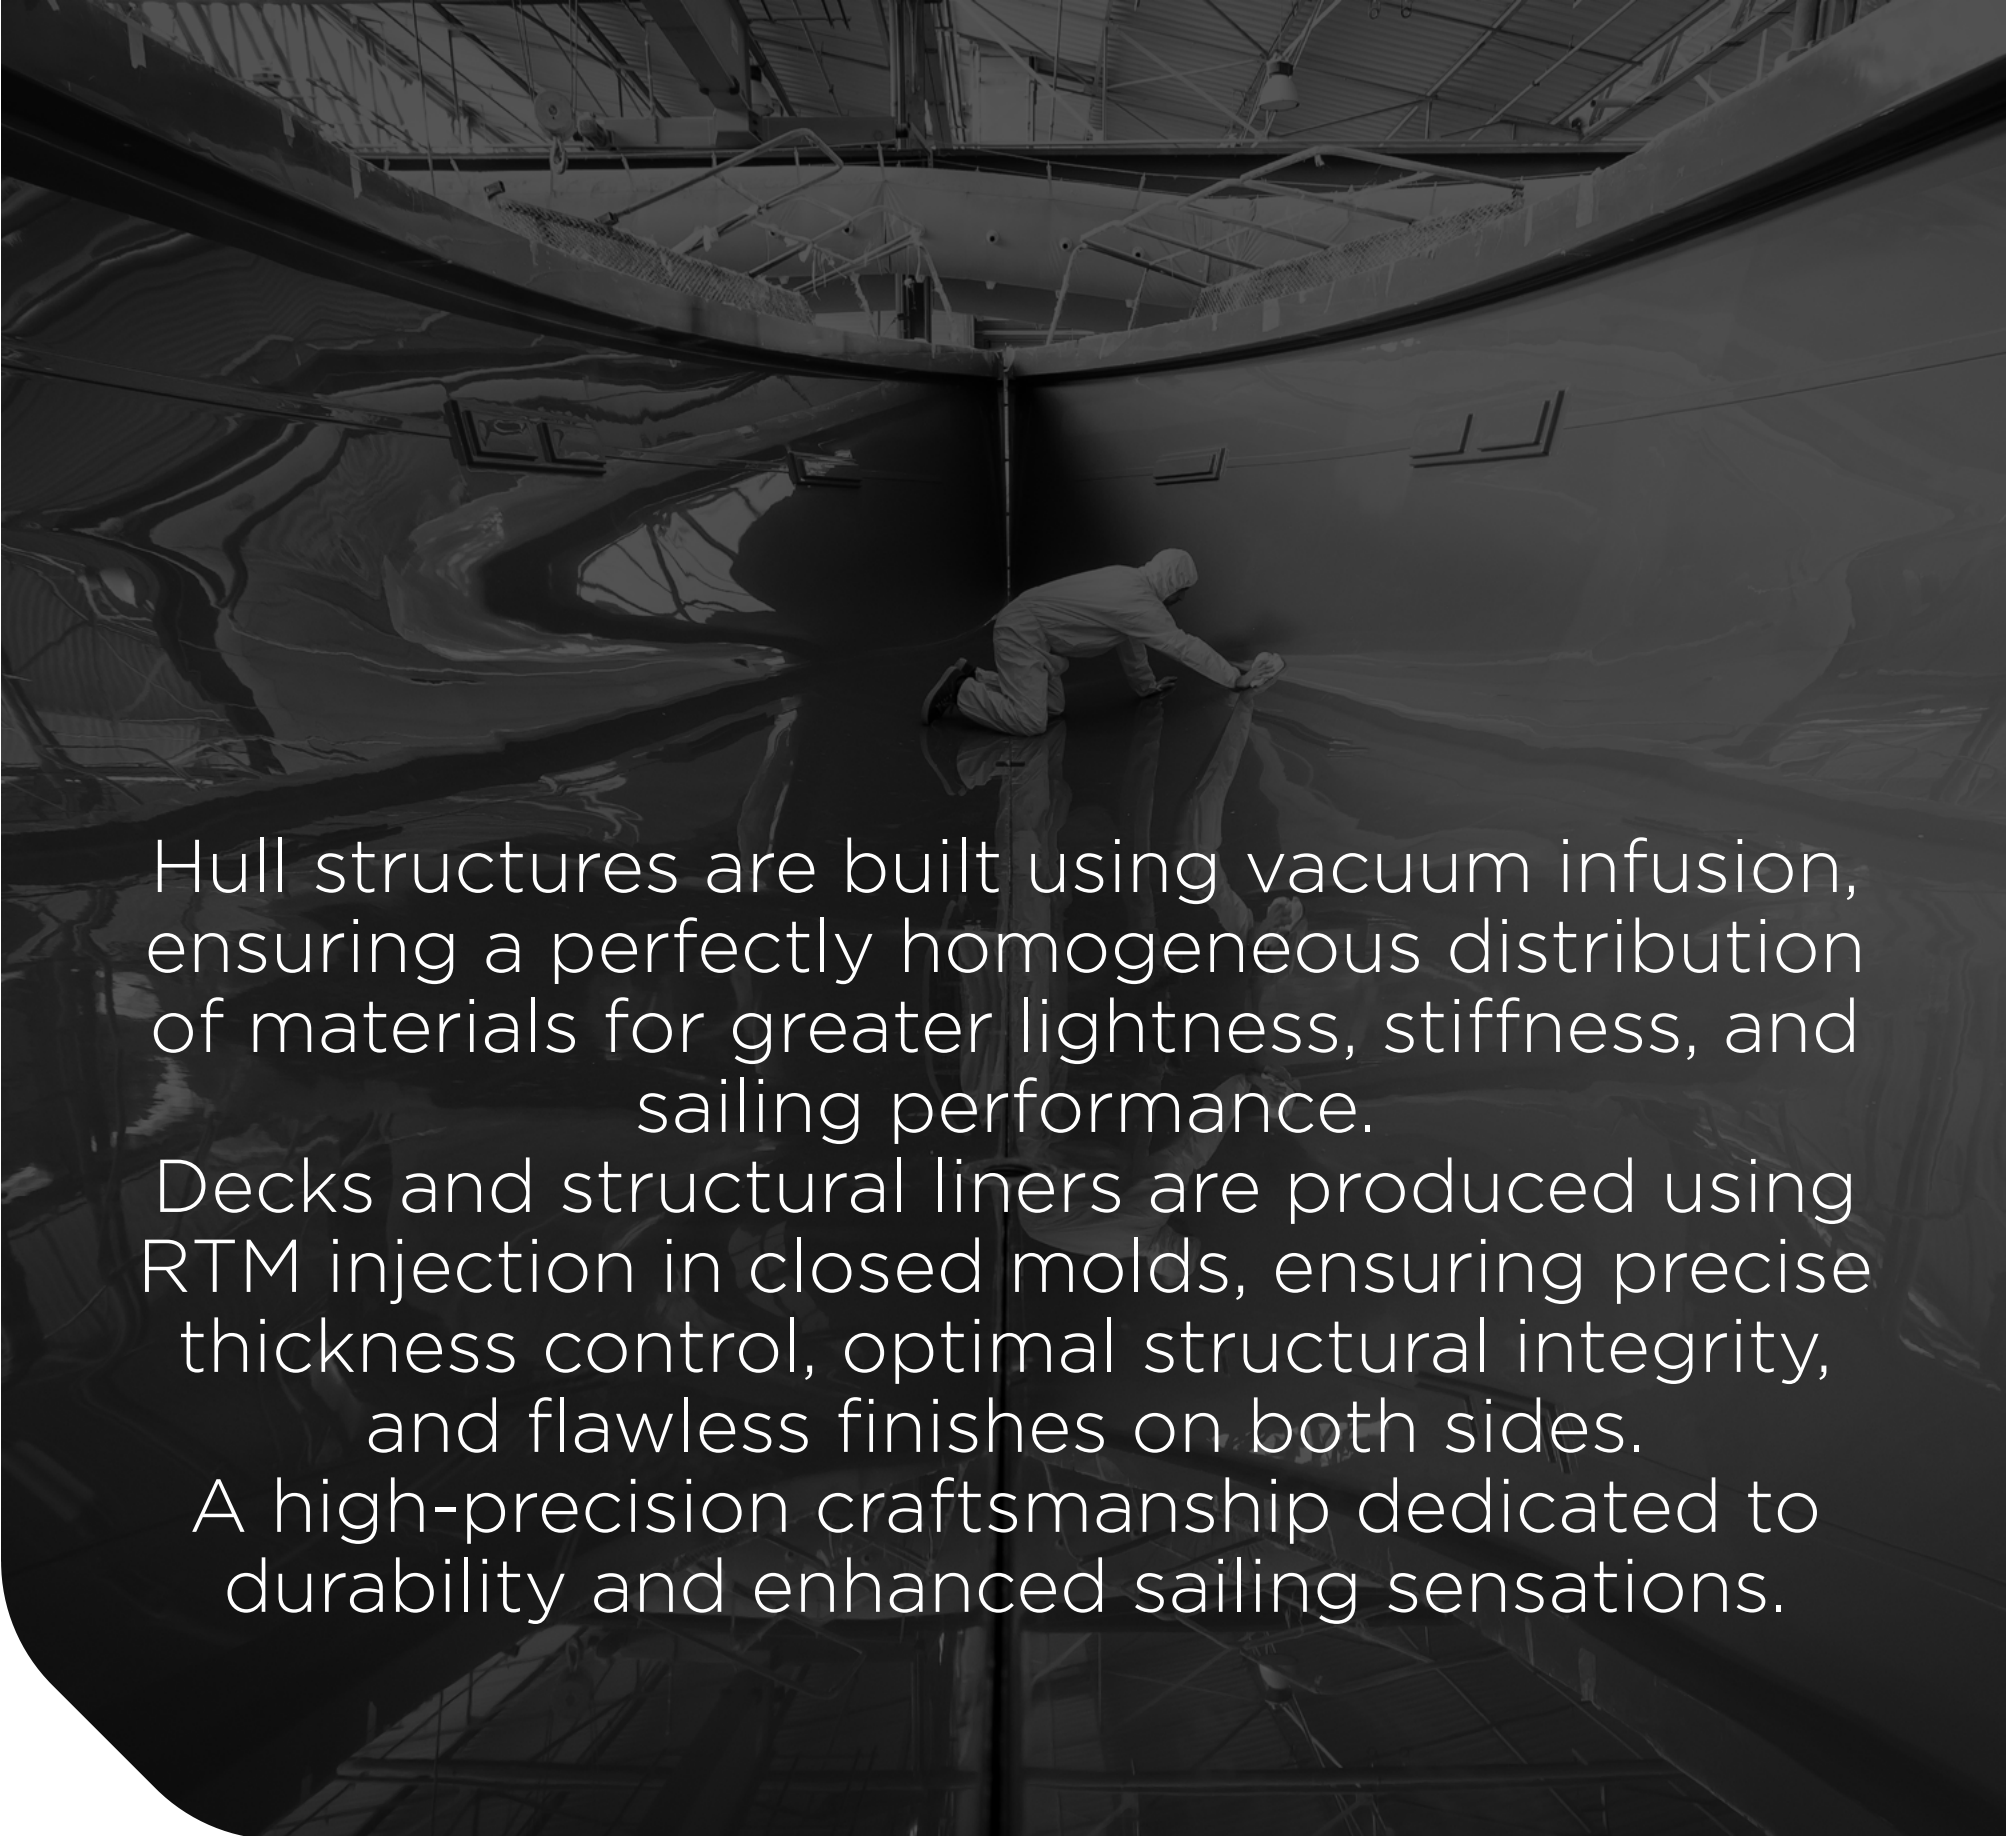

Through his creative vision, Luca Ardizio shapes both the interior and exterior design of Dufour yachts, creating spaces that are elegant, functional, and welcoming.

His work elevates life on board and turns every Dufour into a genuine invitation to travel. “The idea is to introduce new elements and bring innovation in design, while remaining simple, functional, and true to the Dufour DNA. Aesthetics are a fundamental aspect.”

At the origin of every voyage, Built to last. Made to sail.

Every Dufour yacht is designed in 3D by our engineering office to optimize its structure and industrial integration.

Hull structures are built using vacuum infusion, ensuring a perfectly homogeneous distribution of materials for greater lightness, stiffness, and sailing performance.

Decks and structural liners are produced using RTM injection in closed molds, ensuring precise thickness control, optimal structural integrity, and flawless finishes on both sides.

A high-precision craftsmanship dedicated to durability and enhanced sailing sensations.
